U.S. To Curtail Buildup In Viet

JOHNSON CITY, Tex. (AP) — Secretary of Defense Robert S. McNamara told President Johnson Saturday fewer Americans would be sent to fight in Viet Nam next year and draft calls might be cut in half.

McNamara based his optimistic report in a military situation he said had been stabilized and dramatically improved.

McNamara said the United States would slow its troop buildup, curtail bomb production at home and — barring the unforeseen — undertake no sharp increases in air raids on Communist North Viet Nam.

His hopeful assessment—with its possible bearing on the unanswered question of a wartime tax increase—was delivered at Johnson's LBJ Ranch.

And it came in the waning days of state and congressional election campaigns—some of them shaped by issues of war and the economy.

McNamara tempered his optimistic words with this note of caution: "I want to emphasize that we continue to face a stubborn enemy."

And to fight that enemy, he indicated, 40,000 more Americans will be sent to Viet Nam before the current year is over. McNamara said American forces in Viet Nam would total about 385,000 men by the end of December. The currently reported level is about 345,000.

McNamara came to Texas to talk about defense spending for the year ahead—the budget's biggest item, and the one that may determine in large measure whether Johnson proposes an income tax increase.

The evidence McNamara and Johnson gave Saturday was weighted toward a budget picture that might make a tax increase unnecessary.

But that question was not answered at a news conference on the front porch of Johnson's ranch house. McNamara said he could not estimate the size of next year's defense money request, nor that of a supplemental appropriation—beyond the Defense Department's \$58-billion share of the 1967 budget—which the administration will request in January to finance the Viet Nam war.

Johnson said the budget impact of McNamara's planned slowdown in Viet Nam could not be assessed in dollar terms now.

McNamara said only: "The cutbacks will take place...It's information that bears on the future of our economy and the transition from war to peace."

McNamara reported these major decisions—"barring unforeseen contingencies"—on the shape and impact of the war next year.

"Draft calls will be lower for 1967 than they have been for 1966. It is now apparent that the total number to be called during the next four months will be significantly smaller—perhaps no more than half as many—

Jets Down 2 Red MIG 21s Near Hanoi

SAIGON, South Viet Nam (AP) — The battle of Tay Ninh Province, heaviest sustained fighting in Viet Nam since July, went into its fourth day Sunday in the thick jungle and thorny vines near the Cambodian border northwest of Saigon. U. S. infantrymen, possibly 10,000 of them, built a trap around a large force of Viet Cong.

In the air, U. S. Air Force pilots knocked down two Communist MIG21s with air-to-air missiles late Saturday northwest of Hanoi, the North Vietnamese capital.

The action raised to 25 the number of MIGs shot down in the Vietnamese war and to six the number of modern MIG21s.

German Officer Who Saved Paris Dies At Age 71

BADEN-BADEN, Germany (AP) — Ex-Gen. Dietrich von Choltitz — a central figure in saving Paris from destruction in World War II — died Saturday after a long illness marked by asthma, arthritis and heart attacks. He will be buried Wednesday, which would have been his 72nd birthday.

Choltitz was the Wehrmacht leader who defied Adolf Hitler's orders to stage a last-ditch fight against the Allied invasion in 1944 and to destroy Paris rather than let it fall into Allied hands.

Instead the bemolored Prussian aristocrat, assigned to command German occupation forces in the French capital after duty on Polish, French and Russian fronts that won him citations for bravery, surrendered to the Allies and turned over the city relatively intact.

The Nazis called him a traitor. The saving of Paris brought him years of ostracism. As an ailing older he lived in seclusion with his family on a general's pension of about \$875 a month at a home on Frankreich-Strasse (France Street) in Baden-Baden, the headquarters of French forces in Germany.

Gen. Pierre Koenig, a former commander of the French forces, was among Choltitz's most frequent guests.

Koenig once said of him: "He has more friends in France than he has in Germany."

"We are hurting the Viet Cong," said one U. S. operations chief. "We have them boxed in and they are trying to break out."

U. S. headquarters said 157 enemy soldiers had been killed in bitter clashes Thursday, Friday and Saturday. Spokesmen termed "over-all" American casualties light, but there were indications some units were hit hard.

The fighting involves the U. S. 196th Light Infantry Brigade, the 25th and the 1st Divisions. It is described officially as "multibrigade" size, but this could mean as many as 10,000 men fighting in the battle for the strategic province. Tay Ninh long has been a Communist stronghold and its location makes it a main infiltration route for men and supplies into the area of Viet Nam surrounding Saigon.

In the battle with the MIGs, the American craft, on an es-

cort mission, sustained no damage.

The two F4C Phantom crew members who brought down the MIGs Saturday were identified as Capt. James Tuck, 38, of Virginia, Va.; Lt. John Rabeni, 25, Southboro, Mass.; Lt. Wilbur J. Latham, Jr., 26, of Eagle Grove, Iowa, and Lt. Klaus Klaus, 24, of Franklin, Pa.

Continuing good weather enabled American pilots to maintain the stepped-up pace of the air war against targets in North Viet Nam on Saturday.

Skyhawks from the 7th Fleet carrier Constellation made two strikes against a naval support facility 24 miles east-southeast of the port city of Haiphong.

Hitting with Bullpup missiles at supplies stacked on the beach area, pilots reported they set off several secondary explosions and fires.

Saigon headquarters spokesmen said they had no new detailed reports of the Tay Ninh

Province fighting, but that sporadic action had continued through Saturday night and into Sunday.

One of the U. S. units involved — the 196th Light Infantry Brigade from Ft. Devens, Mass. — was getting its first real action in the war. It came to Viet Nam with 50 per cent draftees in August.

Elsewhere around the city of Tay Ninh Communist forces attacked two South Vietnamese outposts, inflicting heavy casualties.

No Sharp Hike In US Raids Seen

JOHNSON CITY, Tex. (AP) — Secretary of Defense Robert S. McNamara said Saturday "no sharp increases" in U. S. air action over North Viet Nam are planned next year.

He said the current rate of attack—about 25,000 sorties a month—is taking its toll in material and morale in North Viet Nam. A sortie is one flight by one plane.

McNamara's assessment of bombing plans was part of an optimistic report to President Johnson on the war situation.

"I expect that this trend toward stabilization will govern our air operations, and the deployment of air units to South Viet Nam, and the level of our air attacks," McNamara told newsmen.

"We have been flying, for example, more than 25,000 air attacks a month," he said. "No sharp increases in that level of air activity are planned for the future."

McNamara said the United States had three major objectives when it began bombing North Viet Nam in February 1965, and they are being achieved.

"The first was to increase the morale of the South Vietnamese military forces and civilian population," he said. "Surely we have achieved that objective."

"A second objective was to reduce the flow of men and equipment from the North to the South, or to increase the cost of that infiltration of men and equipment."

"Very clearly we have increased the cost," McNamara said. "How much we have reduced the flow, we can't say."

LIFT CURFEW IN UGANDA

KAMPALA, Uganda (AP) — The five-month-old curfew in Buganda kingdom, including this capital of the Uganda federal government, has been lifted because of an improved security condition, President Milton Obote announced. It was imposed during a crisis in which Buganda's king, Sir Edward Mutesa fled to London after the Uganda army had stormed his palace in May.

Another son of a president, is on the Liberal party ticket in the New York race for governor. He might pull enough votes away from Democrat Frank O'Connor to toss a squeaker to Republican incumbent Nelson A. Rockefeller.

The other Rockefeller, brother Winthrop, is in another tussle for governor in Arkansas, going along the main drags in a horse-drawn wagon now and then looking for votes against ardent segregationist Jim Johnson, a Democrat.

Since the Senate is bound to stay in Democratic hands and the governors will be more potent politically in 1968, the key contests this year involve the fate of 44 freshmen Democrats in the House.

They rode the Lyndon B. Johnson landslide to victory in 1964, then gave the administration comforting and sometimes crucial votes, on item after item of Johnson's "Great Society" legislation.

They weren't always unanimously with the administration. But enough of them were so that the Democrats would like to have them all back.

In The Associated Press tally, 16 are leading, 11 trailing, and 17 were tagged as tossups.

WHAT GOES DOWN must come up, reasons California Gov. Edmund (Pat) Brown, who doesn't mind reaching into manholes to shake hands with voters. The scene took place in San Francisco, where Brown hopes to score a big victory in order to counter Ronald Reagan's expected edge in southern California. (NEA Telephoto)

Death Toll Mounts In Wake Of Flood

FLORENCE, Italy (AP)—Italy's most ruinous floods since the Middle Ages eased Saturday after levying a high toll in life and property and damaging some great art treasures. But streams were rising again under lowering clouds in the northeast.

More than 100 persons were feared dead in the Italian phase of fall storms kicking off across Europe from the Mediterranean to Scandinavia. More than 40 dead have been counted.

Thousands were injured and tens of thousands made homeless.

The threat of further trouble centered in the Alpine region of Trento, where floods and landslides already had cost the lives of at least six persons. Trento, a city of 70,000 was isolated. The Weather Bureau said the clouds could unleash new waves of disastrous rains.

Floods Subside All through the central and most northern sections, struck Friday by the full fury of rain, swollen, tempest-boiled rivers and streams, the floods were retreating.

Florence and Venice, two of the great museum cities of the world, were scenes of desolation and misery.

Experts said the floods had caused more damage to Florence and its priceless art works than the combat of World War II. Venice lay stunned and slime covered by the worst flood tide to hit the canal city in a thousand years.

Weather worsened in other sections of Europe. England got scattered snows and flooding. Landslides and rampaging rivers killed 11 persons in Austria. Freezing temperatures, rains and snows hit Spain.

Pierce winds lashed the Yugoslav coast and raked southern Poland. At least five persons were dead or missing in Yugoslavia. Trees and electric lines in Poland's Tatra Mountains fell before winds reported to have reached 135 miles an hour.

In Italy, Venice was left awash in stinking, salty slime deposited by the Adriatic Sea.

Lawrence, 77, whose behind-the-scenes political moves earned him the sobriquet, "maker of presidents," collapsed Friday night while speaking at a party rally.

Twice pronounced clinically dead after heart stoppages, he rallied after emergency medical treatment and clung to life.

Dr. Moses, heading a medical team at Presbyterian-University Hospital, said Lawrence's condition had deteriorated a great deal and that he had experienced numerous convulsions symptomatic of brain damage caused by the heart stoppages.

Gemini 12 Pilots Given Medical OK

CAPE KENNEDY, Fla. (AP) — The Gemini 12 astronauts Saturday received medical clearance to rocket into space next Wednesday while another Cape Kennedy launch team prepared to shoot for the moon Sunday.

Here is the schedule as the United States this week takes two more important steps toward a manned lunar landing.

The Lunar Orbiter 2 spacecraft is to set sail for the moon at 6:21 p.m. Sunday atop an Atlas-Agena rocket. Its goal is to orbit the moon and take high-resolution photographs of 13 potential astronaut landing sites.

Last In Series The Gemini 12 double-header is to start at 2:16 p.m. Wednesday when another Atlas will boost an Agena satellite into orbit as a target for Navy Capt. James A. Lovell Jr. and Air Force Maj. Edwin E. Aldrin Jr.

The astronauts are to start the pursuit atop a Titan 2 rocket at 3:55 p.m. This will be the last Gemini flight.

Lovell and Aldrin passed a staff four-hour medical examination Saturday with flying colors. Doctors pronounced them physically and mentally fit for their planned four-day voyage.

Dr. Norman Pincock, chief examining physician, reported the astronauts were "fit to fly, ready for the mission."

Highlights of the Gemini 12 mission include a rendezvous and linkup with the Agena, three work sessions outside the spacecraft by Aldrin, photographing a total eclipse of the sun and a sodium vapor cloud to be speared across the sky by a French rocket.

Most Important Test Major goal of the journey is to determine whether man can work effectively outside an orbiting spaceship. On two of the

Predict Moderate Republican Gains

WASHINGTON (AP) — The 1966 election campaign wheeled along today through clouds of uncertainty over Viet Nam, backlash and living costs toward Republican gains of modest dimensions in Tuesday's climactic balloting.

Unless undetected undercurrents of sentiment are stirring among a prospective 59 million voters, a survey completed five days before the election indicates the Republicans are likely to gain fewer than 30 House seats, pick up perhaps a net of one Senate seat and possibly gather in five or six more governorships.

The GOP can count on gains in one or both branches of some of the state legislatures, the analyses indicate, but not on a border-to-border sweep.

No Single Issue No single issue stands out as a pivotal one on which the election outcome will be decided. As is often the case in off-year elections, purely local issues are likely to be decisive in many races.

The war in Viet Nam seems to be the greatest concern of most Americans in the autumn of 1966. It has been talked about, and argued about as a campaign issue. But there are no signs it will sway many votes one way or the other.

Republican Gains. George Romney of Michigan and James A. Rhodes of Ohio are in this classification, along with the party candidate for governor in California, Ronald Reagan. So, too, is the Republican senatorial

candidate in Illinois, Charles H. Percy.

Percy: Top Runner A survey by Associated Press bureaus and member newspapers just ahead of the election lists Romney and Rhodes as big winners. It tabs Percy as the Republican most likely to oust a Democrat from the U. S. Senate — grizzled veteran Paul Douglas.

Movie-television actor Reagan apparently is out in front in a tough, tight race with Democratic Gov. Edmund G. Brown.

There are plenty of other attention-sparking races, too — for governor in Alabama, Arkansas, Georgia, Maryland and New York, for example. And Senate contests in such states as Massachusetts, Tennessee and Texas.

But one thing that catches the eye of the party pros is that the chief tom-tom thumpers in the opposing political camps in this nonpresidential election year are men who aren't running for anything — this time.

Sen. Robert F. Kennedy of New York for the Democrats and former Vice President Richard M. Nixon for the Republicans have been demoralizing a sort of political perestroika week after week along the campaign trails crisscrossing the country. Despite

disclaimers, the idea still gets around that both Kennedy and Nixon might be in there pitching for the presidency two years from now.

Then there is Democratic Gov. George C. Wallace of Alabama. He can't succeed himself, so he is running his wife, Lurleen, to serve a puppet term while he controls the strings and ponders another try in 1968 as a third-party presidential contestant advocating the cause of the white man.

Familiar Names Many known political names are on the ballots in both state and national elections — Eisenhower, Stevenson, Taft, Roosevelt, and two Rockefellers.

Earl Eisenhower, young brother of the former president, is running for Cook County (Chicago) clerk on the Republican ticket.

Adlai E. Stevenson III, son of the late ambassador to the United Nations and Democratic presidential candidate in 1952 and 1956, is trying for state treasurer on the Democratic ballot in Illinois.

Robert T. La Follette Jr., son of the late Ohio senator who was called "Mr. Republican," is the Republican nominee for the House in Cincinnati's 1st Ohio District.

Richard M. Nixon

much money he has brought into Republican coffers this fall, but that kind of green thumb is the kind political gardeners appreciate most.

Johnson called Nixon a "chronic campaigner" but that didn't make the former vice president mad. He's the first to admit that he's a chronic campaigner for any Republican running — left-wing, right-wing or center.

"And I've campaigned for some turkeys in my day," he said.

SMALL FRY DELIGHT IN HALLOWEEN PARTIES

Halloween parties (and parades too) are the delight of the small fry (and fun for grownups too). Pictured above are two such gatherings held this year. At left are some of the children attending the afternoon party Oct. 29th at the Tempo store. Hostesses were Mrs. Neil Hungerford and Mrs. Linda Lawson. Mrs. Chuck Niblock served apple cider to the children and Mark and Jeff Niblock helped with the free candy and awarding of free German Shepherd puppies. Other entertainment included the costume contest, won by Mike Bentley and the Jack-O-Lantern contest won by Debra Miller. There were other games and contests with prizes in addition to each child receiving a prize.

The American Business Club entertained pupils of Pathway School at an old fashioned Halloween party Sunday, Oct. 30th, at the MacMurray Cabin. Dave Elceser was chairman of the project and guests other than

AMBUC Club For Pathway Pupils

Pathway pupils included area foster children and families of the club members and their wives. The cabin was decorated and a wide variety of refreshments served. Entertainment consisted of judging costumes, bobbing for apples and other games.

Benefits for Pathway School is a major project of the AMBUCS. The club meets each Wednesday noon at the Holiday Inn. The president, Larry Schmaljohn, extends an invitation to all area men to join the civic minded group and participate in worthwhile projects and fellowship. Emphasis is stressed in community service and the quality of membership is dedicated to the highest principles of Americanism, Brotherhood and Character. Currently a membership drive is underway. The theme of the AMBUC organization is "A man never stands so tall, as when he stoops to help a crippled child."

GREENE COUNTY GOP REVIEWS ELECTION RULES

Members of the Greene County Republican Central Committee met last week in the American Legion Hall in Carrollton to review election rules and strategy.

Harold Albrecht, county chairman, devoted most of the evening to pointing out ways to protect the voters' rights on election day. Albrecht said voter registration has averaged about 100 percent increase during the last three general elections in the county.

The meeting was disrupted for a brief period by the entrance of Jack Alfeld, Democratic County Chairman who also serves as state's attorney.

Approximately sixty people attended the meeting including precinct committeemen, election judges and volunteer watchers and challengers.

Accepting Bids For Post Office At Chambersburg

The Post Office Department is seeking competitive bids to build and lease the new post office building at Chambersburg, Postmaster General Lawrence F. O'Brien announced recently.

The purpose of competitive bidding, Mr. O'Brien said, is to encourage the most attractive and economical offer to the Government in line with President Johnson's economy program to achieve the best possible postal service at the least possible cost.

Under the Department's Lease Construction program, the successful bidder will construct the building according to

Departmental specifications and rent it to the Post Office Department for a basic period of five (5) years, with options to renew the lease for an additional ten (10) years. A site within the main business area is desired.

The Department's capital investment will be limited substantially to postal equipment. The building will remain under private ownership with the owner paying local real estate taxes.

Bidding documents will be available on or about November 1, 1966 and may be obtained from Mr. Richard F. Record, Regional Real Estate Officer, P.O. Box 483, Room 200, Post Office, 1701 Charleston Avenue, Mattoon, Illinois 61938. The Real Estate Officer will supply bidding forms, building specifications, lease provisions and other information. Bids must be submitted to the Real Es-

tate Officer by November 30, 1966.

Old Cannon At Jerseyville Comes To Life

JERSEYVILLE — One of the Civil War Cannon which are mounted on concrete bases in the courtyard before the Jersey County Courthouse, gave forth a loud explosion at 10:12 a.m. Friday.

Occupants of the rooms on the south side of the courthouse were startled by the loudness of the explosion, and a number of them rushed from the building to determine what had occurred. Smoke continued to pour from the muzzle of the old cannon for the period of more than a minute.

Investigators believed that three transients who were in the courtyard earlier in the morning had played a prank by inserting some form of explosive attached to a delayed type of fuse in the cannon.

At any rate, it finally roared forth with volume too large for an ordinary firecracker.

The old cannon is one of two that stood for many years in the Old CP & St L Park on South State Street. Some forty years ago the guns were moved to the courthouse yard at expense of the old Jersey County Historical Society.

To The Voters Of Morgan County:

For the past several months I have tried to personally meet as many as possible of the voters of Morgan County. Since it is not possible to complete this effort in the short time before election, I am taking this means of asking for your support and vote in the election Tuesday, November 8th.

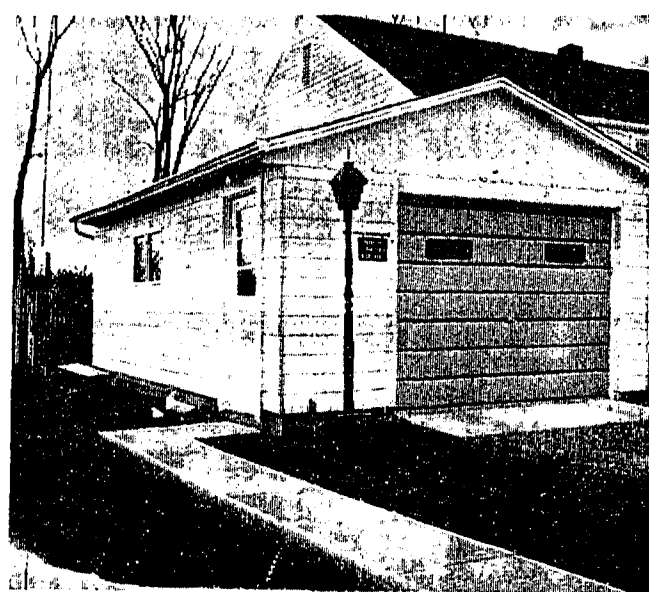

In recent weeks, the advertising columns of this paper have been used to tell you about my education and business experience which qualify me for the office of Morgan County Treasurer. This includes being a high school graduate, carrying out Service Record and Payroll duties for the United States Army for over three years, and more than 17 years business experience as owner-published of a weekly newspaper, and owner of an insurance agency. As a member of the Morgan County Board of Health and the Morgan County Board of School Trustees I have gained knowledge of the function of County Government. In carrying out these duties I have for the past fifteen years been serving the taxpayers of Morgan County at no cost to them. On the other hand, this is the first time I have been a candidate for an office with a salary to be paid by the taxpayers.

I ask that you consider these facts when making your choice for County Treasurer at the polls next Tuesday.

“Charge-It”

Here is the new family charge card with a bank behind it.

A master credit system that gives you thousands of charge accounts all over the state.

What's the big advantage? Unquestioned credit. You need only this one charge account to charge goods and services at places you've never charged before. And it simplifies your money management. “Charge-It” means better budget control, easier bookkeeping, better tax records.

How does it work? No matter how many places you charge, you get only one bill each month. Itemized so you can pinpoint where your money is going. There's no service charge if you pay in 25 days. (Or you can pay just a portion of your bill each month and turn it into a budget charge account.)

Where may I use my card? At any of the thousands of stores in Illinois displaying the circular symbol you see on your card. At local stores and fine restaurants, never able to offer charge accounts before. You'll receive a complete directory.

What does it cost? The card is free—as many as you need for your family. There are no annual fees or dues.

Can I use my card to get cash? Yes. From \$50 to \$100. Just walk into the bank and show your card. No loan application needed.

ON THE PINK BALLOT November 8

- What key provisions of the Illinois Banking Act Amendments will do:
- they will strengthen Illinois state banks and insure their ability to broaden banking operations to meet the needs of their customers and their community.
 - they will greatly improve certain areas of operation in National banks which are presently curtailed by particular provisions in the existing state banking law.
 - they will create a separate and independent state banking department solely responsible for the supervision of state banks and trust companies. Therefore, the amendments will rid the now unavoidable conflict-of-interest situations which arise from combined supervision of other types of financial institutions under the existing banking regulatory agency. The new agency will consist of a Commissioner of Banks and Trust Companies and several Deputy Commissioners.
 - they will establish a Board of Banks and Trust Companies, responsible for jurisdictional assistance, and composed of representatives from the banking industry and from the general public.
 - they will provide the Commissioner with the authority to more effectively control the advent of undesirable bank ownership and operation.
 - they will provide for future operational planning and growth by authorizing creation of subsidiary corporations necessary to efficient bank operations, i.e., electronic data processing, personal property leasing units, and other corporations that would add to the quality and control of acceptable bank functions.
 - they will authorize (within specified footage) a separate drive-up facility. Presently many drive-ups are impractical due to inadequate space adjacent to the bank premises and/or existing traffic patterns.
 - they will authorize Illinois state banks to establish bank accounts for minors. This will meet the needs of the greatly increased number of our young people who have funds of their own.
 - **IN NO WAY WILL AFFECT YOUR TAXES . . .**
 These proposed amendments are completely NON-CONTROVERSIAL and NON-POLITICAL in nature. They do not in any way alter provisions in the state banking act which prohibit branch banking. To our knowledge, the revised Act has no opposition whatsoever.
 - **YOUR YES VOTE IS NEEDED BECAUSE THE AMENDMENTS REQUIRE A MAJORITY OF THOSE VOTING TO BE ENACTED.**

Friction Way Of Life In Viet Nam Politics

By WILLIAM L. RYAN
AP Special Correspondent
SAIGON, South Viet Nam (AP) — Friction is constant, a way of life, in the politics of South Viet Nam.

The friction discernible now could ignite a new political explosion. The Americans and their allies in Viet Nam's frustrating war are keeping their fingers crossed. They pin their hopes on an odd sort of stability which has marked the rule of Premier Nguyen Cao Ky and the 10 men associated with him in the ruling military junta.

Here the word "stability," as so many other words, is a relative term. At the moment, on the surface, the position of the flamboyant young air vice-marshal who runs the show seems fairly secure.

Will it last? The history of Saigon governments since President Ngo Dinh Diem was overthrown three years ago has been one of coup, countercoup, plots and confusion.

The answer seems to be this: The Ky regime will last as long as the generals in the junta, "the national leadership committee," remain on his side.

Two members of the junta

will be watched for signs pointing one way or another.

Lt. Gen. Nguyen Huu Co, who is considered a capable military officer, has suffered from widespread rumors, and there are reports that he has aroused the anger of Americans here. He may be marked for oblivion. He is believed to have the loyalty of a group of influential military men. Any attempt to oust him from the junta could provoke crisis.

The other junta member being watched is Lt. Gen. Dang Van Quang. He commands the 4th Corps in the Mekong delta, where half of South Viet Nam's population lives. Quang has, in the past, opposed the introduction of large American units in the delta, complaining that Americans did not know how to deal with Vietnamese. The Vietnamese there are not showing much talent in that direction either.

The Americans, however, are going in, probably soon and in force, whether or not Quang has changed his mind in recent months. The delta is one key to the war, scene of the bloodiest fighting at village and hamlet level. Civilian casualties there are painfully high. The brunt of fighting and heavy losses is borne by irregular regional, district and village forces rather than Viet Nam forces.

Since Americans have taken over the major burden of the fighting, the regime can concentrate more of its armed power on keeping its grip on the nation's political life. Army men are less unhappy because the 290,000 regulars in many areas now do little more than rear-guard duty behind the Americans and are less subject to battle casualties.

Return From Trip
Mrs. Kathryn Clegg of Chandlerville and Mr. and Mrs. John Clegg of Jacksonville returned recently from a two-week trip. They visited Mr. and Mrs. Louis Clegg of Hartford, Conn. and toured Connecticut, Washington, D.C. and Gettysburg, Pa. before returning to Chandlerville.

HIGHER EDUCATION TO BE TOPIC OF CASS PTA MEETING

CHANDLERVILLE — Financial aid available to Chandlerville High School graduates who are seeking more education will be discussed during a Chandlerville P.T.A. meeting Monday evening.

The meeting, set to open at 7:30 p.m., will precede a social hour. Refreshments will be served.

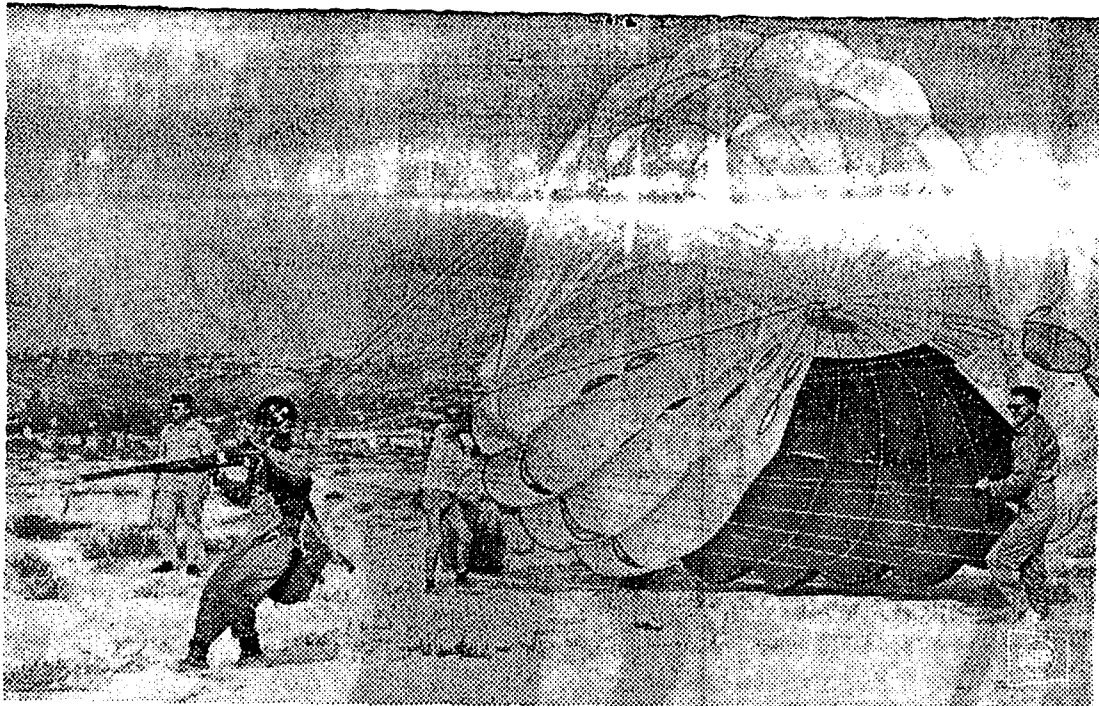

Mrs. Owen Kramer, language and mathematics teacher at the local high school, will summarize the types of financial assistance available to graduates. Mrs. Ruth Muller, director of nursing service at Mason District hospital in Havana, will be present to report on the McFarland Nursing Scholarship which covers the expenses of any nursing student who qualifies for it.

BLUFFS WOMEN TO MEET TUESDAY

BLUFFS — The Bluffs Woman's Club will meet Tuesday at 2 p.m. in the Bluffs Civic Club dining room. "The Little Red Berry," story outlining the history and use of the cranberry, America's native fruit, will be given by Mrs. Wendell Brackett, Mrs. Paul Vannier and Mrs. Roy Beird. Each member will exhibit an antique jelly or jam dish and relate its history.

The hostesses are Mrs. Brackett, Mrs. Clyde Arnold, Mrs. M. J. Baulos, Mrs. Roy Beird, Mrs. Charlotte Campbell and Mrs. Everett Neese.

GOING UP, NOT DOWN is SM. Sgt. Anthony Martino, demonstrating a new method of creating realistic parachute drops into the water. The drops are part of survival training for airmen of the U.S. Air Force Air Defense Command. At a signal from Martino, a powerful motor boat races away at full speed, lifting the parasail and the sergeant 300 feet above the water. From that height he releases from the boat and drifts down to a landing. The parasail, equipped with 54 aerodynamic holes, acts first as a sail to get the trainee airborne, then as a parachute to simulate a realistic emergency descent.

A STEP FORWARD . . .

In many elections there are important measures to be voted on that, to a considerable extent, are a mystery to a majority of voters. When this occurs, most voters cast a negative vote or do not vote at all. As a result, worthwhile bills or amendments are often defeated because the voters are uninformed or are apathetic.

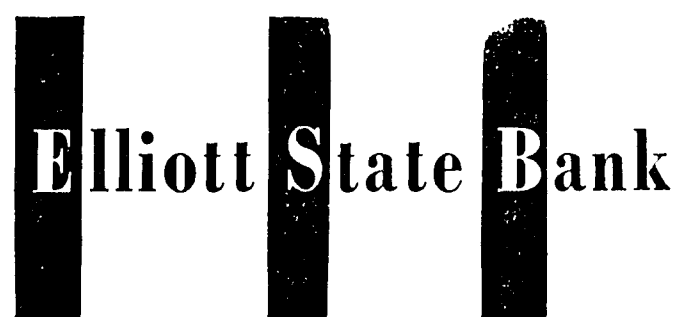

THE ILLINOIS BANKING ACT AMENDMENTS (THE PINK BALLOT) WILL BE VOTED ON NOVEMBER 8.

These Amendments are important to Illinois banks and the public they serve, basically because they will strengthen and broaden the State Banking Act, and will provide the public with better and more convenient banking services.

All of the Amendments are important and constructive, but the one most directly of benefit, and therefore of interest, to the public is the "facility" Amendment. This authorizes the ownership and operation of one drive-up facility located apart from the main banking premises. The facility must be located within 1,500 feet of the main premises of the establishing bank, and will allow banks to provide drive-up banking services away from congested traffic areas. There are certain restrictions that prevent one bank from encroaching on another bank's territory.

The Amendments have been endorsed by the Illinois Bankers Association, the Department of Financial Institutions, Governor Kerner, and state and national banks throughout the State. It should be pointed out that the Amendments do not in any way alter provisions in the state banking act which prohibit branch banking.

We believe all Illinois voters should give their support to these constructive banking Amendments.

Under New GI Bill

Some 250,000 Veterans Stream Onto Campuses

By GAYLORD SHAW

WASHINGTON (AP) — Nearly 250,000 of America's "cold war" veterans have streamed onto college campuses this fall to continue their education with the aid of the new GI Bill, officials reported today.

Settlement of the Viet Nam war and the subsequent return to civilian life of many of the 336,000 troops now committed to the conflict would send the total zooming upward, they said, perhaps causing severe overcrowding in some schools.

Under the measure — commonly known as the "Cold War GI Bill" — signed by President Johnson on March 3, honorably discharged veterans with more than 180 days active military service since Jan. 31, 1955 are eligible for educational, housing and other benefits.

The program, approved by Congress without a dissenting vote, amounts to an extension of World War II and Korean War GI benefits, but on a reduced scale.

The Veterans Administration said 211,000 October benefit checks had been mailed by last Friday to veterans enrolled in colleges, universities and other institutions — such as vocational or business schools. Files of 35,000 applicants were being processed Monday, a spokesman said.

Officials said they expect the figure to level off at about 240,000 this school year. About 64,000 veterans attended summer classes after the program went into effect June 1.

The new bill covers veterans who served in the war in Viet Nam. But VA officials said their records do not show how many veterans of the Viet Nam conflict are benefitting from the measure.

Under the new program, an

New York Stock Market

NEW YORK (AP)—The stock market edged higher statistically last week, squeezing out a fourth straight weekly rise. This was so even though the Dow Jones industrial average took a minor loss of 2.90 at 805.06.

The verdict was clear cut among the 1,565 issues traded on the New York Stock Exchange. It included 839 gainers and 567 losers.

The Associated Press average of 60 stocks reflected this by rising 1.3 to 294.9.

It was a narrow rise, however, and if not for a quick turnaround in the news at the end of the week, it might have ended with a loss.

Volume for the week was 31,497,651 shares compared with about 31.9 million shares the week before.

As the week's trading began it became apparent profit taking was in order on the strong three-week rise that lay behind. Stocks were sold down sharply but buyers came in quickly.

The underlying supports seemed to be a signal for a general rally of the much-battered glamour stocks Tuesday. All 15 of the most active stocks—a list dominated by high-flying glamour issues—made gains.

"It looks as if some of the big trading funds are back in the market," said Eldon A. Grimm of Walston & Co.

The "performance" or "hedge" funds play the market like traders.

After the close Thursday came news that President Johnson planned surgery. This triggered some selling. The market was rescued, however, by President Johnson's hint that a tax increase may not be necessary if the supplementary appropriation for Viet Nam is not substantial.

Stock prices turned around abruptly, wiping out losses and ending the day and the week with a slight gain.

The municipal bond market rallied for the sixth consecutive week, but other departments of the bond market declined.

A strong advance of up to one or two points was followed by a slightly easier tone.

Government bonds sold off persistently. Treasury bill rates advanced net for the first time in three weeks. Commercial and finance paper rates still are at their highs for the year.

Defense Shines As IC Tips Chicago Illini, 14-7

CHICAGO ILLINI ON THE MOVE UP

The University of Illinois at Chicago Circle may not be long on the Illinois College schedule, because if present plans are worked out, the 'Chicago Illini' may soon move up several notches in Midwestern football circles.

For certain, if the northern Illini grow in football capability in proportion to their rapidly increasing enrollment they will have to be reckoned with in higher ranks than they have played in to date. The Chicago Circle school, formerly Navy Pier and connected with the University of Illinois in Champaign, now has an enrollment of 11,500.

Head coach George Strnad says his school plans to increase its athletic efficiency considerably in the very near future. "The city and school officials want to boost interest in athletics here, and want athletic teams to be proud of in the future."

Speaking before his club took the field against IC Saturday afternoon, Strnad continued, "We don't know exactly how high we want to go. There haven't been any goals set yet, but things are certainly looking up."

"This is actually the first four-year team we've had, and there are very few seniors on it. Formerly we were actually classified as a junior college, making it possible for players to transfer and play immediately at other schools. We've had several go on to play at Champaign."

"Up until the past two years we usually had a player for one or at the most two seasons because he either wasn't academically eligible or if he was talented enough player, he would transfer. Now, with a new, beautiful campus and stricter academic requirements, we have a bright future. The players are staying and we're getting better prospects, although we still give no athletic scholarships at all."

Asked how it felt to play in Soldier's Field in Chicago, seating capacity over 100,000, last week and the much smaller IC field the next, Strnad laughed and said, "That was quite an experience for us. Most of our players are from Chicago and have dreamed of playing in Soldier's Field. That field is unbelievably beautiful to play on."

Strnad added that it cost the school \$1,000 to rent the stadium for one evening, but that it actually made money because Chicago mayor Richard Daley purchased 750 tickets to help out.

Strnad also commented that he wanted to keep Illinois College on its schedule for the next couple of years anyway, until such time that he felt the Illini would be too tough for the Blueboys.

Zuppke Field Dedication Set

CHAMPAIGN — Memories of Bob Zuppke will return Saturday at the Illinois - Wisconsin football game when the field in Memorial Stadium is dedicated "Zuppke Field."

Wisconsin appropriately is the opponent for the dedication, since "Zup" was a graduate of the Madison school. He never lettered as an athlete there, although in 1940 he was given a

"W" blanket. Zuppke's team compiled an 8-7-1 record against the Badgers, but at times it appeared as if there were a Wisconsin jinx working against the Illini coach.

In 1919, Zuppke's powerful eleven rolled to a 6-1 record against strong opposition and shared the national championship with Harvard and Notre Dame.

Illinois needs a victory to square the all-time standings. Wisconsin leads 19-18, with five

Washington Upsets Ranked UCLA 16-3

SEATTLE, Wash. (AP) — Washington, sparked by Frank Smith's touchdown interception and Jim Sartoris' 80-yard kickoff return, upset third-ranked UCLA 16-3 Saturday before 56,300 howling fans in rain-swept Husky Stadium.

The loss put previously unbeaten UCLA in a critical position for a return trip to the Rose Bowl.

Washington struck with first-period fury, going ahead on Don Martin's 42-yard field goal only four minutes into the game. Kurt Zimmerman tied it up for the Bruins with a 36-yard field

goal six minutes later. Sartoris then did his heroics, taking Zimmerman's kickoff on his own seven-yard line, and was on his way until Mark Gustafson caught him at the 13.

Six plays later, fullback Jeff Jordan banged over left guard for the touchdown and Martin's kick made it 10-3.

Washington scored again midway through the third period when Smith picked off Gary Beban's pass at the UCLA 29-yard line and romped in for the touchdown.

record to 3-1-1 in keeping the Pasadena trip in mind. Minnesota and Purdue, also aiming for the Rose Bowl, tangle next week for what should be the ticket.

Tim Wheeler's interception in the first quarter touched off a 39-yard Gopher scoring drive in 12 plays, with workhorse John Wintermute carrying seven times.

Another soph, Dennis Cornell, rammed over from the 2 and Jim Barle added the first of his four extra points.

Gophers Zoom Ahead
Minnesota zoomed ahead 14-0 early in the second period after Tom Sakal's pass banditry, moving 74 yards in 10 plays.

Hubie Bryant's 34 yard gallop off a double reverse was the big play, and Wilson pitched the final 6 to Last.

Northwestern before halftime made it 14-7 when Mike Baker recovered Ray Whitlow's punt fumble on the Gopher 28. On the tenth play Melzer hit Larry Gates with a 6 yard touchdown loss.

Chico Kurzwaski's bobble after taking the kickoff in the third period was captured on the Northwestern 28 by Jerry Hermann. Wilson eventually rifled a 20 yard scoring pass to Last.

Later Al Koranda filched a Wilson aerial and the Wildcats thrust 52 yards with Woody Campbell scoring on a 1 yard smash.

A 28 yard pass interference ruling set up the score. Minnesota put victory out of reach early in the fourth on a early march in five plays, featuring a 34 yard ramble by Wilson after picking up Wintermute's fumble. Wilson eventually rounded in for a 17 yard touchdown.

Wilson carried 19 times for 106 yards and Wintermute 28 for 86.

The victory was Arkansas' fourth in five conference games and set up next Saturday's showdown with league-leading Southern Methodist.

The Razorbacks built a 17-0 lead in the first quarter on Bob White's 47-yard field goal. Harry Jones' eight-yard run and Dickey's one-yard plunge.

Rice broke Arkansas' string of 11 straight scoreless quarters when Chuck Latourette returned a punt 60 yards for the first Owl touchdown. Moments later Rice intercepted a pass at the Arkansas 20 and scored on L.V. Benningfield's two-yard run.

The Owls went ahead in the third quarter as a heavy fog settled in over the stadium. The Owls moved 49 yards in 11 plays with Robby Shelton going the final three.

Crimson Frosh End Undeclared Campaign, 28-0

The Jacksonville High freshman football team completed an unbeaten season Saturday morning, with a 28-0 shutout over the Auburn frosh-soph club.

The Crimson frosh finished with a 7-0-1 record, being tied by Quincy.

Roger Stewart's five-yard run in the opening quarter and Randy Headen's extra point made it 7-0 early. Later in the same period Terry Thady scored from ten yards away and Chad Ormiston legged the point after for a 14-0 lead.

Quarterback Steve Waltrip and end Rick Hatcher combined on an 80-yard touchdown strike and Stewart broke loose for a 60-yard scoring gallop in the second quarter. Waltrip and Headen each ran a PAT for a 28-0 halftime spread.

Larry Stewart, Randy Siville and Alvin Hammers were defensive standouts for the winners.

JHS Sophs End Perfect Season, 12-6

SOUTH BEND, Ind. (AP) — Nick Eddy's 85-yard kickoff return and Tom Schoen's 63-yard punt return for third quarter touchdowns enabled top-ranked Notre Dame to subdue Pittsburg 40-0 for the Fighting Irish' seventh straight football victory Saturday.

Pitt's once-victorious Panthers held Notre Dame scoreless until the final five minutes of the first half when quarterback Terry Hanratty's three-yard scoring run capped an 80-yard Irish march.

However, the tide really turned against Pitt which had beaten only West Virginia in seven previous starts when Eddy raced 85 yards with the second half kickoff for a 14-0 Irish lead.

Still in the third quarter, Schoen grabbed a Panther punt in full stride and streaked 63 yards down the sidelines for a third touchdown to make it 21-0 for the Irish and the Panthers began to fold.

In a 19-point Irish spurge in the fourth quarter, soph half-back Bob Gladieux scored twice on a 19-yard pass from Hanratty and a 5 yard touchdown run.

Pitt started gamely enough, keeping the Irish off balance by intercepting three Hanratty passes and recovering a fumble by Eddy the first time the Irish had the ball and marched from their 30 to Pitt's 25.

However, the best Panther effort was a missed 38-yard field goal try by Howard Heit after the Panthers had intercepted a Hanratty toss on the Irish 27.

Eddy, shortly after his brilliant 85-yard kickoff return, nearly broke away for another touchdown on a 51-yard scrimmage sprint. On the play, he suffered a sprained right arm and had to leave the game.

Eddy's game-turning run with the kickoff opening the second half was brilliantly executed. He apparently was trapped by Pitt's Greg Keller at the Panther 15, but feinted so cleverly Keller missed him completely in a sprawl to the turf.

Rowland, Sullivan Highlight Offense

By BUFORD GREEN

Journal Courier Sports Editor

The Illinois College defense came up with the big play all afternoon and Tom Rowland and Bucky Sullivan kept the offense rolling as the Blueboys closed out their 1966 home season with a 14-7 surprise over a strong University of Illinois at Chicago Circle club, on the IC field Saturday afternoon.

The IC defense held three times inside their own 30 in the first half to thwart the high-powered Chicago Circle offense and took advantage of two key interceptions by Mark Whittler and fumble recoveries by Dennis Watson and John Frazier.

Sullivan looked sharp handling the Blueboys on offense, running himself ten times for 56 yards and hitting six of ten passes for 56 more while Rowland ground out 103 yards in 26 plunges into the line. Sullivan also accounted for both scores, running one and passing for the other.

Chicago Circle, which last week topped Lakeview, a team that had beaten IC by two touchdowns, actually moved the ball well most of the afternoon behind the sparkling running of Don Gotkowski. The sophomore speedster, who was 12th in the nation in NAIA rushing figures, gobbled up a whopping 161 yards in 24 carries.

The Blueboy offensive line of Ed Simoncelli, Marion Owens and Butch Bending on the left side and Ben Todaro, Garth Cripe and Dale Hill on the right side and John Zerog at center opened up big holes for the running backs all afternoon, against a much larger Chicago line.

Defensive Standouts
On defense Whittler had two interceptions in the final quarter. Mike Painter (North Greene), Terry Allen (Meredosia) and Mike Herter (Springfield), John Levins (Routt) and Watson (Westville) were among the standouts, with the first three breaking through twice each to throw Chicago runners for losses on key plays.

Chicago dominated the first quarter to the tune of 26 plays to 12 for the hosts, but was not able to put over two first downs running in a string. Herber, Painter and Levins all came up with key stops in a series in which Chicago moved from the IC 43 to the 12 after an interception of a Sullivan aerial.

Watson picked up a Chicago bobble at the visitors' 22 early in the second quarter and IC moved steadily down to the six with a first and goal, but bogged down on four straight running plays at the four.

Get On Scoreboard
After holding Chicago there and getting field position at the 36 on a short punt, the hosts mounted the first scoring march of the afternoon. Jerry Sapp (Bluefs) got nine to the 27 and Sullivan kept to the 21. From there Sullivan vaulted a bootlegged around left end for the 21-yard score and Ed Cripe booted a perfect PAT for a 7-0 difference with 5:39 showing in the half.

A roughing the kicker penalty on a crucial fourth down play gave Chicago life in the third stanza, as the Chikas moved from their own 27 to the Illinois College 27 before Larry Herick knocked down a fourth-down pass to end the threat.

Late in the third quarter IC got going on a 70-yard scoring march that took 13 plays and ended in an early fourth-frame score. In the Mark Rowland carried nine times and Sullivan six. After getting to the two, Sullivan tossed to end Hill wide open in the end zone on a flat pass for the score. Cripe again connected on the point after for a seemingly safe 14-0 spread with 13:08 showing in the contest.

Keep Chicago Stalled
Frazier's fumble recovery and Whittler's two pass interceptions stopped Chicago the next two times they had the ball. In the meantime IC continued to control the ball, with Cripe missing an attempted field goal from the 24 with seven minutes left.

Following Whittler's second interception, IC gave up its only score of the afternoon. Chicago's Greg Zajac broke through to block Ed Price's punt at midfield, picked the ball up and raced unmolested the remaining distance. Carl Carbone booted the point after for a 14-7 difference with just over three minutes showing.

From there IC picked up three straight first downs, with Sullivan hitting Hill for nine yards and a key pickup to keep the drive going. The Blueboys gave up the ball with only 38 seconds left and Chicago quarterback Jim Izral had four passes miss in the remaining time.

IC is now 3-4 for the season, while Chicago dropped to an even 3-3.

Sullivan's Theft Wins For Illini, 28-21

The Bowling Scene

by Sandy Petersen

A majority of the individual league leaders upped their margins in local circuit action last week, with almost all team game and series highs coming from the first division clubs.

Only one league lead changed hands, while the remaining standings charts underwent little if any change.

Tempo Aristocrats added another game to their slowing increasing Thursday Nite Men's League lead last week.

Their 2-1 night, combined with a 1-2 outing by previous second-running Birdsell Candies, lifted them to a three game lead over the Jokers, who posted the week's high game and series on 1085 and 3052 counts.

Dick West's 602 series (208, 188, 206) and a 222 effort by George Manker topped the individual totals. Ed Autery's 181 average is high. A 181 triplicate by Don Roehrs' also highlighted the action.

George Manker continued to dominate individual statistics in the Three Man Scratch Classic League Friday night, rolling 190, 213, 211 and 227 for a spectacular 841 series.

Manker, who tops the loop with a 194 average, sparked the Bowling Center to high team game and series totals (631 and 2309). Cliff Farmer recorded high game of the night on a 248.

Wade and Dowland retained their two game lead during the action, via a 3-1 fairing.

W.J.I.L. Radio was another unit which upped its margin, as they picked up a two-game spread in the Jacksonville Merchant's League standings.

Joyce Elliott's 587 series, coming on games of 176, 239 and 172, highlighted the individual tallying. Agan's Oil Took the team game and series honors on a 753-881-835-2469 outing.

Jim's Big Value increased its Community League lead by one game the hard way Friday night by gaining only one of three triumphs.

LaCrosse Lumber moved into a tie for the second slot via its high series total (3084), while Pepsi Cola took the high game on 1073.

Ed Tribble sparked LaCrosse's feat with week-high scores of 186, 221, 209-616. John Eoff's 179 average tops the league charts.

Jacksonville Foods No. 2 lost two games to Bates Market but still maintained a half-game lead over Wade and Dowland in Elks League play last week. The runner-ups suffered a 1-2 night at the hands of Budweiser.

Ralph Eoff shot a 600 series to hold his high league average of 190, while Rex Henly had the high game of the evening on a 239 effort.

Mac's Clothes had high team game and series on 1103 and 3063.

Four game sweeps by the Bowling Center and Hembrough Motors kept the race for the Tuesday 3-Man Handicap League lead in tact last week, as the Bowling Center retained its half game advantage over the one time leaders.

George Manker sparked the leader's effort, which included the high series of 2258, with an 815 series. R. Drumb's 247 outing, and a 620 team effort by George's Pizza rounded out the week highs.

Marian Manker fired 203, 220, 192 - 615 to record new highs in the Rockette League game and series departments. The effort lifted the Penza Realtors' to a 182 average for the year.

Mids Casual wear gained its third straight three-game sweep during the action to take a 4-1/2 game advantage over Rays TV.

Children & Family Service totaled high game (776) and series (2274) for the night.

Cock-A-Doole Doo continued to pour it in Senior Commercial League play to open up a six-game spread over five squads tied for the second ahead of three other entrants.

High league average Chet Reum (190) led Bowl Inn to a 2-1 night on scores of 224, 202 and 188-612. Alan Smith authored the second high pace - 189. Byers Brother's R. Beck also highlighted the play with a 165 triplicate.

Dunlap Beverage, aided by Marian Manker's 559 series, increased its Queen Pin League lead to a full game Wednesday.

Big Brother Coaching Jinx Ended

ANN ARBOR, Mich. (AP)

Bruce Sullivan intercepted a fourth-quarter Michigan pass and ran it back 98 yards for a touchdown as Illinois ended Michigan's big brother coaching act 28-21 in a Big Ten Game here Saturday.

Illinois quarterback Bob Naponic scored twice and Mick Smith ran a punt back 60 yards as Illinois Coach Pete Elliott beat his older brother, Bump, the Michigan coach, for the first time after six straight defeats.

Dick Vidmer hit Jack Clancy with long passes, one for 16 yards and a touchdown, and Rick Sygar scored on a 65-yard punt return for Michigan, but the fired-up Illini refused to be stopped and erupted for 14 points in the final period.

Fall Inside Ten

Carl Ward set up one Michigan touchdown with a 33 yard run and once got away for a 35-yarder, but Michigan failed to score from inside the 10.

Illinois converted a Michigan bloop into a touchdown in the second period. Michigan had driven to the Illinois 11, largely on a 37-yard pass from Vidmer Clancy to the Illinois 13. But a Vidmer pitchout to Dave Fisher was wide and high and Illinois' Fred Harms recovered on the Illini 39.

From there, Illinois scored in 13 plays with Naponic hitting Bill Hughton for 14 yards and John Wriston for 11. Naponic ran 14 yards to the Michigan six and scored himself from the one.

Michigan took the kickoff and hammered back 69 yards in 10 plays with Jim Detwiler scoring down on the six on fourth down. On a sweep, Michigan blockers wedged the Illinois defense into the end zone and Detwiler drove into the wall of players and slid in. Ward set up the touchdown when he zipped through left tackle, broke and slipped tackles and got 33 yards to the Illinois five.

Alabama had forged an 8-0 margin in the first half on a safety and two field goals by Steve Davis, but the Tide was not able to score a touchdown until Johns picked off Fred Haynes' pass and swept into the end zone with two minutes left in the third period.

Griese And Purdue Closer To Bowl, 23-0

Associated Press Sports Writer

MADISON, Wis. (AP)

Rose Bowl-bound Purdue, with Bob Griese sneaking for two touchdowns and kicking a 29-yard field goal, destroyed Wisconsin's upset dreams Saturday and ground out a 23-0 Big Ten football victory.

The win was the first for the Boilermakers over Wisconsin at Madison since 1945.

The Purdue defense, led by end George Olin, frustrated the Badgers at every turn, choking off touchdown bids that reached the Purdue 4 and 7 and intercepted a pass that helped produce the first Boilermaker touchdown.

Bob Baltzell scored initially for Purdue from the two to cap an 18-yard drive that began with Pat Conley's steal of a John Boyajian pass at the Purdue 47.

Georgia Upsets Florida, 27-10, In Second Half

JACKSONVILLE, Fla. (AP)

Georgia's defensive unit harassed Steve Spurrier all afternoon Saturday as the Bulldogs handed the seventh-ranked Florida Gators their first loss of the season 27-10.

Trailing 10-3 at the half, Georgia scored four times after the intermission to blow the game open before a Gator Bowl crowd of 62,820.

Lynn Hughes' 39-yard touchdown interception early in the fourth quarter put Georgia ahead.

Hughes' touchdown came after Ronnie Jenkins plunged over from four yards out to tie the score at 10-10 in the third quarter.

Florida seldom had the ball in the last period.

Florida 7 3 0 0-10

Nebraska Rolls To 24-13 Victory

LAWRENCE, Kan. (AP)

Unbeaten sixth-ranked Nebraska used the passing and running of cool Bob Church and the play busting of middle guard Wayne Meylan to overcome stubborn Kansas Saturday 24-13.

The Huskers made it eight straight for the season and five straight in Big Eight football in quest of their fourth straight league title.

Nebraska erupted for 18 points in the second period on touchdown runs of three yards by Ben Gregory, 27 yards by Church and two yards by Harry Wilson.

TECH BARELY TIPS VIRGINIA, 14-13

ATLANTA (AP)

Fifth-ranked Georgia Tech finally overcame an aroused Saturday 14-13, coming from behind in the third quarter to mark up its eighth straight victory.

With just 15 seconds left on the clock, Cavalier specialist Braxton Hill attempted a 40-yard field goal that would have given Virginia an upset victory.

However, the kick was short and Tech ran out the clock.

Tech pulled ahead when Lenzy Snow drove over from the one and Bunky Henry kicked the extra point to make it Tech 14, Virginia 13.

17-0 At Halftime

Griese, who passed only four times in the first half, drove over from the 1 for the second Purdue score to climax an 82-yard march. His field goal gave Purdue a 17-0 halftime lead.

The 17-0 Griese touchdown came early in the fourth period, ending a 53-yard drive that began with Dick Marvel's recovery of a Badger fumble.

Griese finished the day with 7 for 9 for 95 yards passing. He also kicked two extra points.

Wisconsin, an improved team despite a 2-5-1 record, was able to do everything offensively but score.

Badgers Stall

Trailing 14-0, the Badgers, behind Wayne Todd, who gained 119 yards during the game, drove 70 yards to the Purdue 4 but Olin spilled Boyajian, who was attempting to pass, and the Wisconsin quarterback fumbled. LeRoy Keyes recovered for Purdue.

In the second half, Wisconsin's Mike Cavill recovered a Marion Griffin fumble at the Purdue 43. The Badgers marched to the 7 where Olin smeared reserve quarterback John Ryan on a fourth down pass play.

3rd Period TD Lifts Buckeyes By Hoosiers 7-0

COLUMBUS, Ohio (AP)

Long directed Ohio State's sputtering offense to a third quarter touchdown and the Buckeyes continued their long standing hex over Indiana with a 7-0 Big Ten football victory Saturday before 80,834 fans.

The frustrated Hoosiers, who haven't beaten the Bucks since 1951, had four good scoring chances but could not cross the goal line.

Ohio, unable to move the ball in the first half during a steady downpour, took the second half kickoff and marched 59 yards in 12 plays to paydirt.

The Buckeyes actually assumed a 3-0 lead when Gary Cairns booted a 38-yard field goal into the wind on a fourth-and-five situation, but Indiana was detected for holding and the Bucks elected to take the penalty. That moved the ball to the Hoosier 11.

Fullback Paul Hudson smashed to the two, and then long hit halfback Rudy Hubbard on the 5-yard line. Hubbard shook loose from a would-be tackler and scooted into the end zone for the game's only score.

Cairns' placement at 9:39 of the third period made it 7-0 and the Bucks thwarted two Indiana threats after that.

It was Ohio's second victory in conference against three set-backs, and gave the Buckeyes a 3-4 seasonal mark. Indiana now is 1-3-1 in the league and 1-6-1 overall.

Stavroff showed some fancy passing in the first half but lost his accuracy later and finished with 12 completions in 25 attempts for 123 yards. Long fared better, hitting 11 of 17 for 118 yards and the payoff touchdown.

Indiana 0 0 0 0-0
Ohio State 0 0 7 0-7

Packers May Find Trouble With Vikings

By JACK HAND

Associated Press Sports Writer
Green Bay usually has trouble with the scrambling Minnesota Vikings before they finally subdue Francis Tarkenton. The Packers get their first taste of Tarkenton Sunday, the first of two November football meetings between the clubs.

A year ago the Vikings led 13-7 going to the last period but lost 24-19 at Green Bay when Zeke Bratkowski rallied the Packers after Bart Starr was hurt. In an earlier game at Minnesota, the Packers trailed at halftime but finally pulled it out.

Minnesota, with a 2-4-1 record, has won two of its last three, losing only to Baltimore 20-17 when a last gasp drive ran out of time. The Packers, 7-1, have rolled over Chicago, Atlanta and Detroit since suffering that one loss to San Francisco.

St. Louis, 6-1-1, will be at New York, 1-5-1, Dallas, 5-1-1, at Philadelphia, 4-4, and Cleveland, 5-2, at Pittsburgh 1-5-1 in Sunday National Football League games involving the top clubs in the Eastern Conference.

The rest of the Sunday schedule finds Washington, 5-3, at Baltimore, 5-2, Detroit, 2-6, at Chicago, 3-4, and Los Angeles, 4-4, at San Francisco, 3-3-1.

Hornung Ready

Green Bay is expected to have Paul Hornung available for the Vikings but he may have a tough time getting his job back from Elijah Pitts who ran for 99 yards against Detroit last week.

The Vikings are proud of their defensive unit which held an opponent without a TD for the first time since they entered the league in last week's

50th District Race Seasoned By Entry Of Newcomer—Rose

Recipe for an interesting campaign stew: Take three seasoned politicians, add a fresh youthful candidate making his first appearance for office.

Stir for five months in seven counties, and on November 8 put them out to cool.

The race for state representative from the 50th district easily fits a menu ready for the appetite of any voter next Tuesday.

The three veterans are Carl Wittmond, 61, of Brussels and Elmo (Mac) McClain, 48, of Quincy, both Democrat incumbents, and H. B. Innen, 70, of Quincy, a Republican seeking a comeback following his 1964 defeat.

The newcomer, Tom Rose, 33, of Jacksonville, is running on the Republican ticket for the House seat vacated by state treasurer candidate Harris Rowe.

Wittmond has extensive land holdings in Calhoun county, operates the Wittmond hotel outside of Brussels, is a member of the board of directors of at least one bank, and publishes a weekly newspaper, the Calhoun Herald.

Innen, who is retired, was a former farm manager in Adams county, where he had control over several thousand acres included in the Sny drainage district.

McClain teaches school, and coaches varsity basketball at a Quincy parochial high school, while Rose is an attorney in Jacksonville, who has been in practice since 1959.

And, it's been Rose, a Greene county native, who has kept the political pot bubbling.

As a friend remarked to him last week, "Well, win or lose Tom, you've sure made it hard on the other three."

Hits The Road Early
Following his endorsement from the party, Rose went to work at gaining exposure in the district, and since March has actually traveled over 10,000 miles.

Rose, McClain and Innen have criss-crossed the seven-county district, sometimes even passing each other coming and going to potlucks, church suppers, party rallies, and the general political campaign hash.

When Innen's car broke down enroute to a Jersey county event, it was Rose who happened along and stopped to lend a hand.

And the courtesy was returned when Rose's car tire went flat traveling to a Greene county rally. Innen turned his car around and asked if he could help.

Rose replied, "Tell them I'm coming."

Starts From Scratch
Where the other three have enjoyed past links in the district from previous campaigning, and already possessed political savvy about the voters in the seven counties, Rose had to start from scratch.

Republicans in Morgan county considered Rose a likely candidate to succeed Rowe.

Rose is young, an attorney, served in the military, a graduate of the University of Illinois, served as Jacksonville city attorney, active in civic and party activities, and has an attractive wife, Harriet.

A natural candidate.

His first problem was his name.

On his first swing through Jersey, Calhoun, Pike, Scott and Adams, county, he found when he introduced himself the normal reply was, "Oh sure, I voted for you last time Harris."

So, ironically enough, at the same time Harris Rowe found himself having problems with the Stevenson name, Rose was patiently explaining he wasn't Harris Rowe, but Tom Rose.

These remarks only tended to stimulate Rose, and he concentrated harder at campaigning.

County Races Spark High Local Interest In Tuesday Election

Morgan county's election prospects for five county offices has historically made an about-face and whipped up a moderate but enthusiastic race in two of the contests.

Generally, Morgan county voters have at least a half-dozen candidates for the much-sought office of sheriff in the primary race and the interest seldom lags right up to the November decision.

Election 1966 in Morgan county finds the spotlight moved to opposite ends of the courthouse hallway.

The races for county superintendent of schools and county commissioner have overshadowed the other three offices for the first time in many years.

Incumbent Republican Wilfrid E. Rice faces his greatest challenge in several years from Democrat Paul A. Keller. Rice will place his record on the line for voter approval. Keller has exhibited tireless effort in his bid for the office.

Both candidates meet the legal qualifications for the office in terms of degrees, educational certificates and teaching experience.

Commissioner Race
The second most important race, in terms of activity on the part of the candidates involved, is for the office of county commissioner.

Incumbent Republican Harry E. Thompson is trying for his third three-year term and Democrat Don McNamara is making every effort to gain the title.

Thompson is one of three commissioners under whose reign the courthouse has been remodeled and improved. The present makeup of the county board includes two Republicans and one Democrat. McNamara is trying to shift control of the board to his party by unseating Thompson. McNamara served four years as magistrate prior to implementing of the new judicial system.

Thompson is no stranger to campaign activities and has exhibited the same vigor as in past campaigns. McNamara, in the closing weeks, has surprised even his closest supporters with a whirlwind of activity. The board of county commissioners is important to both parties since it involves the purse strings, in a practical way, to every other county office, elected or appointed.

Sheriff's Race
The race for sheriff, usually the spotlight of local contests, will be decided Tuesday but campaign activity on both sides has yielded little interest from the sidelines.

Republican Dean Colwell, currently serving as deputy sheriff and deputy coroner, and Democrat John F. (Jack) Lonergan will await the returns Tuesday evening with equal concern. One of them will move into the county jail residence for a four-year lease in December.

The race for county treasurer will be between Harold E. Wright, Republican, and Alfred H. Hodgson, Democrat. The treasurer serves four years and then may not succeed himself in office.

Wright is currently serving as sheriff. Hodgson is the publisher of a weekly newspaper in Waverly.

ILLINOIS POWER PLANS EXPANSION OF GAS SERVICE

The Illinois Power Company, pending Illinois Commerce Commission approval, plans to build a natural gas system into the towns of Chapin, Concord and Arenzville with an extension from this line into the Leland Lake Subdivision.

The new line will start west of Jacksonville at the point west of Spaulding Road on the north side of the Norfolk and Western tracks at Bypass 104 and then north to 104 west to Chapin with a lateral going to Concord and Arenzville, north on the Concord blacktop.

The total distance of feeder line will be 16.2 miles, and is to be completed and in service by the heating season of 1967.

National Education Week On Local Level

Editor's Note: This is the first of a series of five articles written by civic leaders to be published during National Education Week, Nov. 6-12.

By J. A. Mann
Superintendent Of Schools District 117

Education Adds Up. Education does "add up" in more ways than one. It has always been a basic requirement for a democracy such as ours, and today the elements of education go far beyond those of a few years ago. So much so, that many of our leaders are thinking and talking seriously of a minimum of two years beyond high school for almost everyone. Education is not a guarantee of success, but it can provide the know-how and background necessary.

Teachers, administrators and board members are constantly adding and re-adding the component parts in a struggle to bring modern ideas of what a good curriculum and good teaching methods should be to every classroom. The parts keep changing and if eternal vigil is not maintained, they will not "add up" to what parents want most and provide the results the staff would like to obtain.

Everything new and better seems to cost more and more money. In this respect the schools are often short changed because of a belief that taxes are too high. Taxes are only too high if the educational program is not worth what it costs. It is true, too, that in education for children, as in everything else, the buyer gets just about what he pays for. An outstanding school system costs plenty of money in any community.

School District 117 has been fortunate for many years to be counted among the leaders in educational progress. This has been true because the people wanted it to be. It will remain so as long as the people want high quality education for their children. "Adding up" to an even better program should be the aim of this school district in any year.

Rowe's Big Problem, Getting Name Across In Treasurer's Race

By ARTHUR L. SRB
SPRINGFIELD, Ill. (AP)—He's a descendant of two Illinois governors, his father served as Illinois secretary of state, and he himself has been campaigning for statewide office four months.

He is State Rep. Harris Rowe, candidate for state treasurer in the Nov. 8 election.

"It's a name game," Rowe commented during an interview. "My No. 1 problem is getting my name across."

"And I don't say that to demean Adlai," Rowe said in reference to his Democratic opponent, State Rep. Adlai E. Stevenson III, who also has an illustrious political ancestry.

"I don't intend to debate ancestry with my opponent," Rowe added, "but I would note that my family, too, has a long and distinguished heritage of public service in Illinois."

Rowe's father, Richard Yates, Rowe of Jacksonville, served as secretary of state in 1944 and was elected state treasurer in 1946.

Civil War Governor
Two earlier family members, Richard Yates Sr., a great-great uncle, was Civil War governor of Illinois, and Richard Yates Jr., a great uncle, was governor from 1901-05.

With that kind of background, it was only natural that Rowe would become active in politics. And he plunged in early.

In 1950, at age 27, Rowe was elected as a Republican precinct committeeman in his native Jacksonville and served four terms before becoming Morgan County Republican chairman.

He suffered his first defeat in 1958 when he ran for the Illinois House. "I was just out for the exercise," Rowe recalled. He tried a second time for the House in 1960 and won.

Rowe, now a boyish looking 42, is winding up this third term as a representative. Looking back, he cites as one of his big accomplishments the role he played in helping defeat a Democratic proposal to reapportion the Illinois House in 1965.

"We were able to kill a house

map that would have assured the election of 97 or 98 Democrats instead of the 93 they claimed," Rowe said. "Now our party has a chance to elect a majority in both the House and Senate."

On Limb Before
Rowe has gone out on political limbs during his career but denies he is a maverick. He supported William J. Scott for state treasurer in 1962 when the titular head of Illinois Republicans, the late Secretary of State Charles F. Carpenter, was stumping for another candidate.

Rowe also lined up early behind Charles Percy for governor in 1964 at a time when Carpenter himself was eyeing a shot at the governor's mansion.

"I came out for Chuck when no one thought he had a chance," Rowe said. "I thought it was a time for a younger man."

Carpenter died of a heart attack during the primary campaign and Percy went on to capture the GOP nomination over Scott.

Rowe received a setback in another 1964 race, backing former State Sen. John Meyer of Danville in his unsuccessful attempt to win the GOP nomination for secretary of state.

But Rowe maintains that politicians should let their colleagues know where they stand. "You shouldn't try to ride two horses," Rowe said. "You'll only end up getting both sides mad at you."

Rowe and his attractive wife, Alice Mary, reside in Jacksonville, where he is vice president and secretary of a life insurance company. The Rowes have three daughters, Sally, 9, Mary, 7, and Millie, 3.

RECOMMENDATIONS TO VOTERS

Although this is not a presidential or gubernatorial election year the political campaigns, particularly in this state and in this district, have been heated. Parties and candidates have apparently spent more than ever on advertisements on TV and in the papers. The issues are not clear-

cut but the Democrats, representing the predominant party in power, must stand on the theme "You never had it so good" while the Republicans may win votes because of discontent with the Viet Nam war, inflation and racial controversy.

For Senator — Percy

The most important race is that for the United States Senate. Charles H. Percy is challenging incumbent Senator Paul H. Douglas, a noted liberal leader who has been out of tune with his own party's national administration on many issues. In recent years Douglas has been com-

pletely overshadowed in Washington by Sen. Everett M. Dirksen.

Douglas has had a long and frequently distinguished career in the Senate. Yet we believe it is time for Illinois to have a fresh new voice on the national scene. Percy has the greater potential for effective leadership.

For Treasurer — Rowe

Harris Rowe has made an energetic campaign throughout Illinois to acquaint all voters with the great reforms which have been made in the Treasurer's office under Republican William J. Scott. He has pledged a continuation of these sound fiscal policies.

We endorse Rowe over his Democratic opponent Adlai Stevenson III, not simply because he is a Jacksonville resident, but because he is better fitted for the post. Rowe won the endorsement of the Better Government Association of Chicago on the basis of his superior qualifications.

For Congress — Findley

Paul Findley has ably represented this district in the House of Representatives. He is nationally recognized

as an outstanding legislator. A stalwart champion of farm interests, he should be reelected.

For State Representative — Rose

The voters from the eastern side of the 50th district would do well to plunk three votes for Thomas C. Rose for the state legislature. This can be done by voting only for Rose for Rep-

resentative. Rose has the capacity to make an excellent legislator. He rightly recognizes that West Central Illinois should have effective representation in Springfield.

For The State Senate — Horsley

The untimely death of Sen. George Drach deprived the people of Illinois of an experienced, conscientious lawmaker. Sen. Drach was one of the key men in the G.O.P. senate majority.

Since the state House of Representatives is controlled by the Democratic party and directed to a large degree from the office of the Chicago mayor, we believe it is advantageous to downstate Illinois to have the State

Senate under Republican control. For that reason we recommend the selection of Rep. William Horsley of Springfield, in preference to the Democrat candidate, Jerry White, also of Springfield. Horsley was tabbed by the G.O.P. senatorial committee to fill the Drach vacancy on the ballot. He is qualified by many years of experience in the General Assembly.

For Superintendent

Of Public Instruction — Page Or Prince?

Ray Page, former Springfield High basketball coach, has done a very creditable job in this state school office. His Democratic opponent, Donald M. Prince, currently the director of the

Center for Educational Administration at Illinois State University, has better background qualifications for the office. We regard this race as a toss-up and make no recommendations.

The Pink Ballot — Yes

The Banking Act amendments are generally agreed to be highly desirable improvements. There is no op-

position to them of which we are aware.

The Blue Ballot

There are two blue ballot propositions, one the Revenue Article

amendment and one to permit Sheriffs to succeed themselves in office.

Revenue — Yes

Urgently needed reforms in our state tax structure will be made pos-

sible if the Revenue Amendment is approved. It will not increase taxes.

County Officers — No

We think that the framers of the present Illinois constitution were wise

in not electing county officers could not be elected to successive terms.

Percy's Hot Pace Opens Lead On Aging Douglas

By BRUCE BLOSSAT
Washington Correspondent
Newspaper Enterprise Assn.
CHICAGO (NEA) — An important private poll shows Charles H. Percy, Republican U.S. Senate nominee, making strong gains at the expense of Democratic Sen. Paul H. Douglas. Previously, the two were reported to be nearly neck and neck.

In the words of a key figure who has seen them, these new findings "come very close to substantiating" the evidence of a Percy advance disclosed in many sectors of Chicago and downstate Illinois by the continuing Chicago Sun-Times straw poll.

Not revealed is the crucial matter of whether Percy is drawing a sympathy vote as a result of the Sept. 18 murder of his 21-year-old daughter, Valerie, at the family home in Kenilworth.

Earlier, Percy strategists had insisted that their soundings show no clear sign he was getting a direct sympathy vote response.

If the new private poll does match in major detail the published Sun-Times reports, then political observers are left to conclude that Percy is enjoying a momentum that Douglas may find it difficult to reverse and

overcome in the remaining days. Perhaps most astonishing up to now is the published evidence that Percy has made significant improvement in his status both with Negro voters and with white ethnic groups in the so-called backlash areas of Chicago.

Percy has consciously cultivated the big Illinois Negro vote and has been confident all along that he could more than double the 11 per cent he got as a governorship nominee in 1964. Some Percy men think his Negro percentage may go well beyond 30.

A backlash pickup is another thing. Chicago's summertime Negro riots and marches into rigidly white residential areas have made backlash more explosive in Illinois than any other state except California — scene of Watts and Hunter's Point.

If Percy is reaping votes on this issue, then the unlucky Douglas is being blamed for matters really far beyond his control. He may be simply the victim of incumbency in a time of trouble.

Indeed, a pile-up of other discontents, inflation, the Viet Nam war, nagging urban difficulties, may be similarly plaguing the incumbent Douglas.

The across-the-board character of Percy's gains suggests,

in fact, that some sort of "time for a change" mood may be at work among Illinois voters.

If the handsome young Republican businessman may be shown in the end to have gained a sizable sympathy factor, it may be judged finally as simply an "add-on" to other factors here mentioned.

And rustling through these, less subtly than the sympathy issue but nevertheless largely unspoken, is the patently visible age difference between the candidates.

Percy at 47 may look to many like the man to tackle problems considered by voters to have piled too heavily around the stooped shoulders of the 74-year-old Douglas.

If the rustling liberal's years are crucial, then he may find it very hard to override this and other obstacles by seeking to portray Percy as shifty on most issues and both naive and soft on the question of Red China's possible participation in either Asian or United Nations councils.

Douglas' real hope may come to center on voting day on just one thing — the vaunted rustling power of the aging but still awesome organization of Chicago's Mayor Richard J. Daley.

Dear Ann:

Petty Pilfering Poses Problem

By ANN LANDERS

Dear Ann Landers: A member of my husband's family has been stealing things from our home for over a year.

It used to be a few small items like a guest towel or an ash tray. Now it is money from the dresser drawer, trading stamps and jewelry. Several members of the family are aware of the problem because the woman has done the same thing at their homes. Outside of hanging on to our purses and wallets when she is around nobody has said much.

We have discussed the problem with her husband but he says we are making up lies because we don't like her. Please tell us what to do. Her children are lovely and we don't want to bar her from our homes because they will have to be told the reason and we'd rather die than tell them their mother is a thief.

—WORRIED
Dear Worried: Someone must catch this woman in the act or find something in her home that she has stolen, such as your towels or ash trays.

When this is done, suggest that she may be ill and in need of help. If she continues to steal, watch her every minute — even following her from room to room when she visits. But please don't tell her chil-

dren.

Dear Ann Landers: This past year our parents decided that we are going to be the "All-American Family" and the keynote is togetherness.

We are three teen-age girls, 15, 17 and 19. Our folks insist that we all go places together. This means to the beach, to the movies, theater, concerts, sports events. It is embarrassing for us to go to some of these places with our parents because we keep running into our friends who have dates.

We don't want to hurt Mom's and Dad's feelings because we know they are doing it for our good. But it is a terrible problem. Can you think of an out?

—TOO MUCH TOGETHERNESS

Dear Too Much: Your parents' efforts to be an All-American family are a little late — like several years.

It's wonderful for families to do things together but you girls should have developed your own social life by this time. Work on it, and then, by necessity, you will find yourself cutting down on nights out with the folks.

Dear Ann Landers: I fell in love with my boss 12 years ago while working as a secretary in his office. Now I see another

woman doing exactly the same thing.

My husband's secretary is 10 years younger than I am — married to a nondescript character who probably bores her to death. She has no children. We have three. I'm sure my husband is unaware of the clever way she is worming her way into his life. She phones him at home to remind him of things he should do. She drops things off at the house, invites herself in for a cocktail and then stays for dinner. She asks him how he likes her new hair-do and needs his help to remove a silver from her finger.

I've tried to ignore the situation but on low days I'm sorely tempted to tell her off. I pray for the forbearance and strength to keep my mouth shut. Please help me. —SHOOK COOKIE

Dear Shook: You are in a better position to give your husband love and emotional support than this little shrewdly. If you make home a wonderful place to be, he'll be there. If you don't, you can look for him at the office.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper, enclosing a stamped, self-addressed envelope.

A GLANCE Into The Past

10 YEARS AGO

The Chapin station of Midwest Order Buyers Saturday shipped 2,000 butcher hogs to a packing house in upper New York. Eighteen double-decked transport trucks were required to haul the porkers.

Ray Smock of Roodhouse, engineer on the G. M. & O. railroad, retired last Wednesday after 48 years with the line.

William Marmon Gimmy, assistant postmaster at Carrollton, retired last Wednesday after 41 years with the postal department.

20 YEARS AGO

Tuesday's landslide swept six Morgan county Republicans into office by large majorities: Paul Fenstermaker county judge; George T. Douglas, county clerk; Thomas Harber, county treasurer; Ralph Bourn, sheriff; John C. Deem, superintendent of schools; and Walter Fearneyhough, county commissioner.

Winchester Baptist church Sunday honored its pastor, Rev. F. V. Wright, upon the observance of the 20th anniversary of his pastorate.

Richard Yates Rowe of Jacksonville was elected Illinois state treasurer Tuesday, defeating Sam Keys of Lincoln by more than 500,000 votes.

50 YEARS AGO

The Llewellyn Davies estate litigation has been finally cleared up. Under the agreement the 500 acres of farm land, most of it near Pisgah, will be sold and of the proceeds the heirs living in England will receive \$20,000. Attorney fees and court costs add up to \$16,000 and the American heirs will divide what is left over.

W. L. Alexander, writing from Chicago, expresses the certain hope that Cook county will go Republican.

There will be an election Saturday at White Oak school, northwest of the city, on a proposition to build a new school house.

75 YEARS AGO

The new Australian ballot system scared many folks from the polls yesterday, and there were many spoiled tickets, and thus a Democrat succeeds Judge T. B. Orear, who has served this county as commissioner so nobly for the past six years.

The JOURNAL accepts the situation cheerfully and wishes Mr. McDonald joy in his new office and will do all in its power to make his efforts to serve the public a success.

The firemen, for a change, are busy, hustling tickets for their grand Thanksgiving Eve Ball.

100 YEARS AGO

ELECTION RETURNS — We are unable to give this morning the official returns of Morgan county, but the general results are as follows: Republican majorities, Jacksonville, Maunsterre and Lynville precincts, 678. Democratic majorities, Meredosia, Murrayville, Yatesville, Arcadia, Bethel, Concord, 415. Waverly, Franklin, and Sulphur Springs are to be heard from, all democratic, giving in 1865, a united majority of 201, which, if sustained, will leave these results:

Democratic 696
Republican 678
Democratic majority 18

As Major Moore runs ahead of his comrades on the Republican ticket he is, in all probability, elected sheriff. We will be able to give the official results in our bulletins this afternoon.

FINDING THE WAY

The Embarrassing Friend

Dr. Loew

There is a prayer, attributed to the skeptic Voltaire, which implores: "O God, protect me from my friends; I can take care of my enemies myself."

That prayer can be said frequently. Embarrassments are created by many who think of themselves as friends.

The citizen who doesn't think of himself as a traitor can yet betray the real meaning of citizenship. Parents who would be hurt and shocked to be considered unfaithful, may discover that their attitudes either of indifference or of overaffection smother growth and development in the home. Churchmen whose pieties endanger the reputation and life of the church are as dangerous as the heretics who defy it.

A few days ago newsreels across the country carried the pictures of congregational officers standing at the door of a church and denying entrance to an African student.

Converted to Christianity in his native village, the young man had been encouraged to further his education. He had received a fellowship, come to America and now a church barred him from entering to pray with its white members.

The men who barred the boy from worship probably think of themselves as "good Christians." They are church officers; they are involved in the life of the parish and they consider themselves to be friends of the faith. In fact, they have betrayed the thousands upon thousands of men and women who have given themselves sacrificially to the many tough battles for human dignity.

Out of so many congregations across the country have come the forces for decency and honor. Such people, who have placed their careers on the line

and have jeopardized so much of their careers, can join in praying: "O God, protect us from our friends; we can take care of our enemies ourselves."

The dubious friends who are charming, affable and who never raise a voice about anything are the contrast to these grim men who barred the door. They would never do such a thing. They would never do anything. The Lord must love the serious doubter more than such apathetic friends. The doubter refuses to take God for granted. The person who lives through such tortures of spirit knows that he's dealing with a real situation.

John Ciardi once wrote of the type of apathetic, security-minded persons of all too much of contemporary society: "They are so afraid of going broke that they are afraid of going broke." Good people, they are and good neighbors but they are an embarrassment. Of such Jesus said, "Not everyone who says Lord, Lord, will enter the kingdom."

We all need friends and the causes of righteousness and justice needs friends, but real friends, lest we have to pray again: "Lord, deliver me from honor. Such people, who have placed their careers on the line

my enemies myself."

Mature Parent

Big Task for Growing Boy— Making Himself into a Man

By MURIEL LAWRENCE

Newspaper Enterprise Assn.

DEAR MRS. LAWRENCE: I am married to the kind of phony you described in a recent column—that Boy Scout leader and churchgoer who turned out to be a drunk. So what worries me is how to make my 6-year-old son into a real man instead of a phony like his father. I am often accused of "babbling" him, though I am trying so hard to treat him as my equal. But his home, Mrs. Lawrence, is not a happy place when his daddy is in it. I trust you so much...

ANSWER: Later, it seems to me, I'm letting myself get turned into a public relations agent for psychoanalysts.

I can't help it. We American parents have so much to contend with that I'd be mad to push the confusions away. For example, I'd be mad to try to tell you how to "make" a man out of your 6-year-old boy because the very fact that you feel obliged to make him into one is a problem—a deep one. Men have to make themselves into men. And your distrust of this available male ability is one that forces me to urge you to seek some sessions with a psychoanalyst.

I'm not fussing at you. Given your marital disappointment,

it's an inevitable distrust. But it isn't one that began in infancy by the first man of hood, the father whose unmanly evasiveness is only half-remembered.

Psychoanalyst Erich Fromm once wrote: "Man's first duty is to give birth to himself." And that's true. All you and I can do is to bring a boy child into the world. But making him into a man? That's a birth-giving job he's got to do for himself.

If we think we can do it for him, what we most need is relationship with a man who has managed to give birth to himself.

That's why I urge you to see a psychoanalyst—one you trust, one you like. A trustworthy male psychoanalyst has to be a person who has given birth to his own manhood. He's had to discard all kinds of false notions about who he is, about what strength is, what weakness is, what love is and what womanhood is, too.

So getting to know the man he's made of himself destroys the belief that we have to do the making of a little son into a man. We've got right in front of us the man who has won through to manhood by his own struggles, his own courage and tenderness. And we can get straight on the limits of feminine responsibility.

Predicts Early Price Peak For Corn Crop

When there is a short corn crop, the price peaks early in the season, a University of Illinois grain marketing economist observes.

Writing in a new publication issued by the College of Agriculture, T. A. Hieronymus lists seven general rules about seasonal patterns of corn prices. He also states:

288,346 Pounds Of Fish Taken From Chautauqua

HAVANA — The 1966 commercial fish catch from Lake Chautauqua was 35% greater than last year. According to Refuge Manager, Dick Toltzmann, commercial fishermen reported catching 288,346 pounds this year as compared to 213,202 pounds last year. This year's catch was the largest ever made with the use of hoop nets alone.

A total of eight commercial fishermen, working under permit, contributed to the catch. Special Use Permits have been issued by the Bureau of Sport Fisheries and Wildlife for the removal of rough fish from Chautauqua National Wildlife Refuge for many years.

Special conditions of the permits regulate the size and type of gear used so that sport fish such as crappies and bluegills are not injured. Each permittee is charged a small fee which covers the administration of the fish removal program.

Nearly 85% of the fish removed were buffalo. Less than one-fifth of one percent of the catch were channel catfish. Only carp, buffalo, drum ("perch"), bullhead and catfish may be removed from the lake.

A rough fish removal program, such as the one being conducted annually at Chautauqua Refuge, improves sport fishing to a limited degree only. Toltzmann said the main purpose of the program is to harvest the surplus fish each year, thereby providing a steady source of income for local commercial fishermen. The majority of the fish are utilized as food by man in the large cities of Illinois.

Expect Record Soybean Crop Next Year

WASHINGTON (AP) — The United States is expected to account for most of the net gain in this year's world production of soybeans, now estimated to total a record 1.3 billion bushels.

That would be 7 per cent larger than last year's crop and 42 per cent above average. Although the United States will contribute 95 per cent of the over-all gain, the Agriculture Department predicts substantial increases for Canada, Brazil, Mexico, Colombia and Argentina.

American estimators have little to go on in assessing current mainland China soybean output at 250 million bushels. Under the Communist government, China—the world's second largest producer in times past—gives very few meaningful facts.

Earlier predictions were for a larger crop in Manchuria, China's major bean basket, but early frosts probably have held down output.

This year's harvested crop in Brazil of over 20 million bushels is likely to be boosted next year because soybeans may be planted on some coffee land damaged by recent frosts and in areas where coffee trees have been cut down.

Nippy November

Below-normal precipitation is the outlook for most of the nation. Exceptions are the Northeast, with normal totals, and the Pacific Northwest and South Atlantic Coast, above normal.

Maps show Weather Bureau's estimated forecasts of average temperature, precipitation for November.

Warmer than usual in the West and cooler in the East is the temperature forecast for the nation. Near normal readings should prevail from the Great Lakes south to the Gulf Coast.

BRIMFUL 4-H Achievement Day Program Saturday

By Jim Brim

Friday, Nov. 11, is Veterans Day. Congress declared Armistice Day a legal holiday in 1938 and changed the name to Veterans Day in 1954.

Originally established to celebrate the end of fighting in World War I, 1918, it has now been expanded to honor all of our servicemen and women who are now serving or have served our country.

Think about this and observe it in your family group. It is a good day to demonstrate your patriotism—to yourself and to others. Above all be sure your children know the meaning of the day and the reason for its observance.

Election Day is Tuesday, Nov. 8. If you are a registered voter go to the polls and vote. If you aren't registered, and are qualified, register with your county clerk before the month is out so you can vote next time.

Now you should look forward to Thanksgiving.

buy a new pair of gloves.

scrape frost from the windshield.

put mittens on the children.

get flu shots.

try a new recipe.

pop corn and eat apples.

Now that we are off of daylight time and it's darker earlier check reflectors, tail lights, SMV signs carefully. Be sure they do their job. Many accidents occur at dusk, and some of them simply because of poor vehicle markings.

An optimist laughs to forget and a pessimist forgets to laugh. Are your farm records up to date? Work on them as time permits. It's much better to do some each week rather than pile it all up at the end of the year.

A smile adds a great deal to face value.

4-H Federation Hears Dr. Bone

Dr. E. C. Bone was guest speaker at the Morgan County 4-H Federation held Wednesday night, Nov. 2 at the Extension Center. His topic was "Drinking and Smoking as It Affects Teenagers."

IBSSS TEACHER ADDRESSES LIONS AT CARROLLTON

CARROLLTON — Ned Jackson, instructor in the Illinois Braille and Sight Saving School in Jacksonville, was guest speaker at a meeting of Carrollton Lions held Nov. 1 at Day's Colonial Room.

Jackson discussed his work with the blind and the methods of teaching them to develop other resources to make up for their blindness.

Committees were appointed for the annual pancake and sausage supper to be held Saturday, Nov. 12 in the Knights of Columbus hall in Carrollton. Serving will begin at 4 p.m. Tickets may be purchased from any Lions Club member.

Hogs have been donated for the supper and sausage not used for the meal will be sold by the pound. Members are asked to meet at Boiron Lockery in Carrollton Nov. 10 and 11 to assist in preparation of the sausage.

Per capita consumption of meat this year is being estimated at 165 pounds... including 100 pounds of beef, five pounds of veal, 3 1/2 pounds of lamb and 56 1/2 pounds of pork.

During the current marketing year beginning October 1, Hieronymus believes that the market is alert to the possibility of shortage and the much larger prospective 1967 crop. Such a situation suggests that the seasonal price peak for corn may occur early — probably in December or January.

In Circular 948, "When to Sell Corn, Soybeans, Oats, and Wheat," Hieronymus lists detailed costs involved in storing corn, including insurance, taxes, interest and moisture changes. Copies may be obtained from the College of Agriculture in Urbana or from the office of any Illinois farm adviser.

During the current marketing year beginning October 1, Hieronymus believes that the market is alert to the possibility of shortage and the much larger prospective 1967 crop. Such a situation suggests that the seasonal price peak for corn may occur early — probably in December or January.

The support system works effectively when the price is substantially below the loan at harvest. It does not work when the price at harvest is high in relation to the loan.

Illinois Farm OUTLOOK

TWO DARK SPOTS IN BEEF OUTLOOK

The outlook for cattle prices has two unfavorable features: (1) Farmers are fattening considerably more cattle for market than they were a year ago, and (2) housewives are protesting about what they call the high price of meat.

We can make fairly good estimates about the effects of increased numbers of cattle on prices. But we don't have much experience to judge the effects of housewives' protests on cattle prices.

Cattle On Feed Up 8 Percent. On October 1 farmers were feeding 7,943,000 cattle and calves for slaughter. This number was 8 percent more than last year and 15 percent more than two years ago.

Some Illinois farmers may doubt that cattle feeding has increased. They can see some empty feedlots in their community. But some other feedlots, especially in Nebraska, Kansas and Texas, have more cattle than last year.

Illinois cattlemen reported only 409,000 cattle on feed, 4 percent less than last year. But our state now feeds only 6 percent of the total cattle fattened for market in this country. At the first of the month, six other states each had more cattle in feedlots than Illinois. They were Iowa, Nebraska, California, Texas, Colorado and Kansas. Each of them had more cattle on feed than they had last year.

Expected Marketings Up 7 Percent. Reports from the cattle feeders indicated that they intended to sell 4,488,000 cattle during this quarter (October-November-December). This number would be 7 percent more than the number marketed in this quarter a year ago.

There has been some holding back of fed cattle and the consequent accumulation of heavier cattle in feedlots. The heaviest groups in feedlots (steers weighing over 1,100 pounds and heifers over 900 pounds) totaled 751,000 head. This number was 23 percent more than last year and 16 percent more than two years ago.

The next heaviest cattle, steers from 900 to 1,100 pounds and heifers from 700 to 900 pounds, totaled 3,047,000 head. This number was 6 percent more than a year before and 19 percent more than two years ago. They will be marketed largely in November and December.

Women Protest Food Prices. Women in Denver and some other cities have been protesting about what they call "the high prices of food, especially meat." These demonstrations and boycotts may become more extensive.

If housewives slow up on meat purchases, meat will begin to pile up at retail stores and packing houses. You don't have to have an electronic computer to tell you what that could do to the prices of cattle (and hogs).

Beef (and pork, too) will meet heavy competition from poultry during the next several weeks—the Holiday Season. Supplies of both broilers and turkeys are expected to exceed last year's levels by 10 to 12 percent.

BEEF CATTLE SALE IN PIKE MONDAY

Morgan county beef cattle producers have consigned 80 head of calves to the Western Illinois Livestock association sale to be held in Pittsfield Monday, Nov. 7. The auction will be held at the sales barn, beginning at 7 p.m.

The rules stipulate that all cattle must be healthy, sound and thrifty, must be of the beef breeds and grade good or better, and must not have long, sharp and objectionable horns. No horns will be allowed in next year's sales.

In the United States, one farmer or rancher produces enough food and fiber for 35 other people.

Today's consumer spends 18.2 cents of each after-tax dollar for food. This compares with 29 cents in England, 31 cents in France, 45 cents in Italy and 53 cents in Russia.

Kansas City Changes Beef Futures Rules

The Kansas City Board of Trade made significant changes in the rules and regulations of Live Beef Feeder Cattle futures. The revised rules were voted on and unanimously accepted by the membership of The Kansas City Board of Trade on October 17, 1966. The new rules, however, will not take effect or apply to futures contracts until the contract months after February 1967.

Among the changes are: Rule 2910(C) was amended to permit "Cattle which have been dehorned and which have a 'nubbin' or 'scur', not in excess of one and one-half inches in length shall be accepted on delivery.

Rule 2913 "Settling Price — Over or Under" was added to make clear that surpluses and deficits in weight would be settled at the value in the cash market at Kansas City on the delivery date as established by the Cattle Market Reports Committee.

Rule 2921 "Time of Delivery" was changed to make the delivery period any Tuesday or Wednesday of the contract month rather than the first 10 calendar days of the month following the contract month.

FLOCKED FABRICS

Shoppers: Curious about flocking? It is a decorative surface design and is achieved by applying short fiber ends to a cloth or plastic base. This is done by pressing the fibers into a resin substance preprinted on the fabric. It also is done by applying the fibers to the adhesive by electrolysis. Always check hangtags or labels for washing instructions. Quality flocked fabrics usually can be laundered safely.

All bridge players are people. All people think. Therefore all bridge players think. The trouble is, many do their thinking at the wrong time.

South won the heart lead with his ace. Then he led his Jack of diamonds. East took the ace and led back another heart which West ruffed. South played the hand out slowly and thoughtfully but had no way to avoid losing a club.

South remarked that he was afraid of a heart ruff but there was nothing he could do about it. Somehow or other nothing ever worked for him. South should have been more than afraid of a heart ruff. East had gone to three hearts all by himself and East was vulnerable. South should have been certain that East held a six-card suit. South should have used his thinking ability before playing the first card from dummy. He should have reasoned that the heart was a singleton. He should have been certain that East would hold the ace of diamonds and that West was likely to hold the other two. Thus, he could see that heart ruff hanging over his head and if he had thought a little more, he could have seen how to avoid it.

All South had to do was to play the king of hearts from dummy. Then he could discard his ace of hearts on the ace of spades and gone about his business of playing trumps.

The discard of an ace on ace

appears mighty wasteful but this time it was an insurance policy. South held every high club and diamond except the ace and could only lose one trick in each suit. Once he got rid of his ace of hearts he could trump a heart high and avoid the ruff.

Chapin Airman, Lockport Girl Exchange Vows

CHAPIN — A Chapin serviceman, Airman Third Class Michael K. Reining, and Miss Linda Lou Jaggers of Lockport, were united in marriage October first in Lockport and are making their home in South Dakota.

They were married at the Evangelical Convention church in Lockport by the Reverend Raymond Nyquist.

The bride is the daughter of Mr. and Mrs. Elroy Jaggers of Lockport and the groom is the son of Mr. and Mrs. Don Reining of Chapin.

The bride wore a floor length wedding gown of delustrated ivory satin with pearl embroidered lace detail. Her illusion veil fell from a pearl and lace headpiece. She carried a white Bible with an orchid.

Miss Patricia Jaggers was maid of honor and another sister of the bride, Miss Laura Jaggers, with Miss Barbara Fitzgerald and Miss Beverly Swanson, were the bridesmaids. A younger sister, Sue, was the junior attendant. They were dressed identically in slipper length frocks of satin with wide Venise lace waistbands. Maline net headaddresses matched the shades of their respective gowns. The dresses ranged in shades of pastel pink to deep rose. Each attendant carried a single long stemmed rose.

Beth Jaggers, another sister of the bride, was flower girl and wore pale pink fashioned similar to the bride's gown. She carried a white basket filled with rose petals.

David Glasgow of Mt. Sterling was best man and Steven Reining, brother of the bride, was groomsmen. Doug Cornells and Douglas Reining seated guests.

The mother of the bride wore ice blue brocade with corresponding accessories. The groom's mother chose a cranberry colored suit with shocking pink accessories.

Following the church ceremony a buffet dinner was served at the home of the bride's parents to members of the wedding party and out of town guests. A reception was held later in the evening in the parlors of the church.

The groom is serving with the U.S. Air Force and stationed at Ellsworth Air Force Base near Rapid City, South Dakota.

In Hollywood

By BOB THOMAS
AP Movie-Television Writer
HOLLYWOOD (AP) — The aplomb with which Robert Vaughn plays Napoleon Solo in "The Man From U.N.C.L.E." is not entirely due to the actor's craft. He is a cool one off the screen as well.

You get the impression from the meticulously groomed Vaughn that he could handle any situation, whether it's the latest peridy of THRUSH or the taunts of hecklers who attack his real-life opposition to the Viet Nam war. He is articulate and well-read, without the pretentiousness of actors who are Johnny-come-latelies to matters of the intellect.

Vaughn has all the answers on matters concerning his career. Does he chafe under servitude to a television series? "Not at all," he replied airily. David (McCallum, his sidekick Illya) and I were discussing our lot last Friday as we watched the show on television. We both agreed that we were lucky to have the show.

"Before 'U.N.C.L.E.' we were both moderately well-known actors. The series not only made us prominent but gave us a bargaining power. The extent of that bargaining power was demonstrated when I did a feature, 'The Venetian Affair,' last summer. In 10 weeks I earned as much as I earn in 10 months in television."

Vaughn said both he and McCallum expect to remain in the series five years, which he now figures to be its life expectancy. "If a series can go into its third season with good ratings, as we are doing, it's a pretty safe bet it can last two more."

But what about the long time argument that movie audiences won't pay to see heroes they have watched for long seasons on television? Vaughn has an answer for that one, too. "Yes, it's true that only three have made it—James Garner, Steve McQueen and Dick Van Dyke, though Van Dyke is not proven yet. I feel that I might have a good chance because I don't have a full occupation in the series. If I were a lawyer or a doctor or a cowboy, I might be-

Findley Shows Poor Political Manners

By Eugene Callahan
All of us resent party crashers. If you're not invited to an event by the host it's considered good grace not to attend.

But good manners, apparently is not a term U.S. Rep. Paul Findley carries in his political repertoire.

Findley pulled one of the cheapest political stunts that has been staged in Sangamon County in years when he crashed a breakfast sponsored by Democratic Congressional candidate Richard Wolfe in honor of U.S. Secretary of Agriculture Orville Freeman.

However, Findley's crudeness could not have demonstrated better the point Freeman tried to make about Findley's brazen, insincere political tactics.

Freeman was telling his audience that Findley — with a "worse agricultural voting record than any Republican anti-farm city Congressman" — made it a practice to vote against Democratic sponsored legislation, but then returned to his district and tried to take

some of the credit for having helped develop the measures.

For instance, Findley voted against the Title I program of the federal aid to education law, but later he went to the Lincoln school in Springfield to view the operation. It just happened a photographer was present to catch Findley's appearance.

Freeman said Findley voted against Medicare, against the income tax reduction, against the War on Poverty, against watershed legislation and against the nuclear arms control measures. But after some of these bills were passed, Freeman said Findley let on he had something to do with the legislation in the first place.

Freeman is the target of much of Findley's criticism. To hear Findley tell it, Freeman is about the worst thing to happen to American agriculture in a century.

But what does Findley do when Freeman comes from Washington to Springfield to talk with farm leaders and Democrats in behalf of Wolfe.

He crashes the breakfast at the St. Nicholas Hotel and tells Freeman, "I didn't come here to debate, Mr. Secretary, I just stopped by to welcome you to the greatest agricultural district in the United States."

Then Findley reached out his hand to greet Wolfe.

As soon as the photographers snapped their picture, Findley — the grandstander — left the hotel and continued with his campaign.

There's no way Findley can try to tell his constituents he tried to learn something about Freeman's address. Findley did not even stay long enough to remove his overcoat.

Hatlo's They'll Do It Every Time

Letter Praises The West

By GRACE T. HOLMES

The following is a quaint letter descriptive of Ye Olden times in Illinois. By way of explanation, it may be said that the letter was written by Caleb and Thomas Edmundson, two young men who came West from some point in New Jersey, to seek a new home, the letter being to their father back East.

It seems that the young men found a place to their liking and we know of no better commendation for our grand old State than is to be found in this old epistle. The manuscript from which this is taken is yellow with age and worn with frequent handling. The chirography is most legible. It is the old-fashioned and somewhat cramped style so noticeable in manuscript of those days.

"Eighteen hundred thirty-three, ninth month, and twenty-four, We got the letter sent by thee, Of which we set great store.

"McClain county, at Bloomington, in State of Illinois, the goodly land where we have gone, And place of many joys.

"Our dearest parents, we are well, And going on to wealth. Through favors, bless the Lord, we tell Enjoying of good health.

"But once a week the mail comes here, Four times we anxious come, We were so eager now to hear From our friends at home.

"We're pleased to find you all are well, Delighted to hear from you: Some things are pleasing that you tell, While others are painful, too. Your neighbor's death, that mind we may That we are Mortal, too, Our preachers get so little pay, Dear friends, that will not do. The news you'll please to send us Of strange things passing there, With deaths and marriages, For all these things we care. Three different sects camp-meeting had, In the adjoining wood, And every one of them was glad That they were doing good.

"We will describe the country now: Land is high and rolling; Delightful for the sythe and plough, Streams in valleys strolling. Limestone is plenty

everywhere. Stone coal the very best. Salt springs abounding south of here, and lead mines to the west.

"Walnut, hickory, and sugar tree, with oak of every kind: The nicest trees you ever did see. Elm, poplar, ash and lynn. With a large plough, mole board of wood. With yoke of oxen four. They turn the ground up deep and good. Two acres a day or more. The corn they drop in each third row, And cut it in with hoe. Fifty bushels per acre grow. When nothing more they do. The second year they plough the field. With oats they sow it down. And seventy bushels is its yield For each acre of ground.

"The hogs into the field are turned, the gleanings then to eat: And then the stubble off is burned. And plough it in with wheat. Thirty-five bushels here are raised. On each acre of land: The wheat so great we were amazed To see how well it did stand. The next year corn is planted here. As thick as it should stand. Can raise a hundred bushels there Off each acre of land. Without manure potatoes grow. And water-melons fine: And all the garden seeds we sow Grow Pleasant to our mind. Prairies here many a mile. By groves of timber all.

"The best of grass growing wild. Pasture and hay for all.

"Farmers go out and mow for hay, and put it up in stacks: In winter they feed it away, For here there is no lack. Horses, cattle, sheep and hogs live full and fat in pasture; For here the creatures all do thrive. Barring of disaster. They feed their corn, their oats and hay. Horses, hogs, sheep, cattle: And sell them to be drove away For the pleasing metal. Some farmers here that came out poor But a few years ago, Have now their thousands Less or more, According as they do. Now if our friends will come out here, Contentment then we'll see. Oh, father sell-come to the West, And buy the Congress land; That money here is laid out best You easy understand.

"Land is increasing every year, In worth nearly double; And that without your pains or care, Will pay you for your trouble. You can live here as you please Upon the very best; They three zones can afford for ease, You here can take your rest. Neighbors and friends, there's room for all Who will their fortunes test; And bring your money with you all, Buy good land in the West. Protestants there are some here, School house we seven find: Meeting twice a week we're near, Forming of the mind, Four hundred houses built this year In the town of Chicago; Seventy schooners sailing there, And two steamboats, also. We bid farewell, our letter ends, And send our best respects To you and all enquiring friends, And classmates not neglect. To our dear parents, love and grace, Till all things fall and done; We wish you happiness and peace.

C. & T. Edmundson

The condition of the Empress Carlotta is described as being hopeless.

The Paris journals state that the Court dress-maker has actually made ball-dresses with short skirts, a great innovation. It is said the Empress wishes trains to be worn at all ceremonious occasions, but that she will encourage short skirts for dancing as trains are so inconvenient.

Defense And Air TDs Win For JHS

CANTON—Unable to control the game on the ground in their usual manner, the once-beaten Jacksonville Crimsonstruck for a pair of aerial touchdowns to split end John Mathews in the first half and notched a 20-6 non-conference triumph over a stubborn Canton club, here Friday night.

Held to only 34 yards on the ground in the first half, JHS rolled up a 13-0 intermission lead with Rich Coble and Danny Brooks hitting Mathews for distance strikes.

The Crimson defense gave up 129 yards rushing, but time and again came up with the big play. While the winning defense was sharp for most of the game, the offense was below par, giving up the ball three times on fumbles and twice on interceptions. Added to the debit side were 113 yards in penalties, many of which ended JHS scoring threats.

Abe Brown was the only Jacksonville running threat during the game, as the senior half-back flash turned in another 100-yard plus evening with 118 yards on 17 carries. The entire team managed 157 on the ground, with Rich Coble and reserve Benny Richardson contributing key gains.

The victory moves Jacksonville to a 7-1 record for the season, while Canton dropped to 3-5. The Crimsonstruck close out their season at Hannibal, Mo., next Saturday night.

54-Yard Shocker

Unable to move at all on the ground the first two times they got the ball, Jacksonville shocked the Little Giants with 48 seconds left in the opening period when Coble took a pitchout from Brooks and in turn hit Mathews with a strike at the 15 and the junior speedster raced in untouched. Dean Hill booted the point after for a 7-0 lead.

A fumble by Brooks and an interception ended two more JHS scoring chances in the second quarter before John Long recovered a Canton fumble on the Little Giants' 22 to set up a score. After Brown lost three, Brooks connected with Mathews from 25 yards away and a 13-0 halftime lead.

Canton threatened to get on the board in the closing seconds of the half, with a long kickoff runback and a pair of long gainers by halfback Rod Stairwalt. Quarterback Dave Banko hit Stairwalt with a pass that carried to the Crimsonstruck's five when time ran out.

Canton quickly got back into contention at the start of the second half, moving from their own 28 to score in only four plays. Stairwalt reeled off 27 yards and two penalties advanced the ball to Jacksonville's 27. From there Stairwalt carried to the 20 then lateraled back to Banko who scooted the remaining distance for the score. The snap for the PAT was bobbled, leaving Jacksonville in a 13-6 lead with 7:32 left in the contest.

Fumble Sets Up Score

After the teams traded fumbles early in the fourth quarter, JHS's Dave Marshall picked up his second of the game, setting up the final score of the evening.

Brown got the score from five yards away with 8:15 left to play. Coble tossed to end Tor Duerwer for the point after.

Brown intercepted a Canton aerial to halt one drive and the Jacksonville defense held for four plays inside their own seven to settle the issue. Canton got one more shot when a Brooks' pass was picked off at midfield, but again the Crimsonstruck held for four plays as time ran out.

The Rockets' running game controlled the ball most of the game, getting over 200 yards rushing, with Lambert piling up 100 and Geers close behind.

After a scoreless first period the Rockets got on the scoreboard with a 40-yard scoring march capped by Geers' 12-yard sweep around right end. Lambert legged the point after.

The eventual winners got a scoring break to open the second half by recovering a Kincaid fumble on the kickoff, on the Ponies' 30. Lambert scored from four yards out a few plays later.

The Routt defense buckled down to thwart a serious Kincaid drive in the third quarter, holding the hosts to only three yards on four running plays inside the five.

Early in the fourth period Kincaid's John Odam returned a Rocket kickoff 70 yards for the only score by the Ponies.

Most of the rest of the game was played outside the 30-yard markers, with Routt inside the Kincaid 20 when the contest ended, thanks to an interception by Geers at the 20. In the middle of the fourth period Dick Zeller picked up a Kincaid fumble and returned it 40 yards to score only to have it called back.

While Lambert and Geers handled most of the running chores, senior Dan Welsh stood out in directing the team after regular quarterback Loyd Krumlauf was injured midway through the opening quarter.

The victory boosts Routt to 5-3 on the season, with one game remaining.

Unbeaten Triopia Too Much For ISD

ARENZVILLE—Triopia cinched the PMSC Conference crown here Friday night by defeating ISD 32-6, behind running backs Bill Meier and Larry Crews.

Crews and Meier scored all of the Triopia's points. Crews scored three touchdowns to Meier's two, and Meier scored both extra points.

Two fumbles and a blocked punt set up scores for Triopia in the first half. Crews bucked over from the one on a fourth down play to give the Triopia the lead just before the first quarter ended. Meier ran the extra point, making the score 7-0.

Following a Tiger punt, Triopia set up shop on the 50-yard line. The Triopia drove steadily down to paydirt, the big play being a 30-yard pass from Tom Burrus to James Kleinschmidt. Meier ran around left end from the three to hike the score to 13-0. A run failed to net the extra point.

Leslie Morris recovered an ISD fumble on the one-yard line, and Meier carried the ball across on the next play. A pass failed.

Morris blocked an ISD punt, and Harlan Fricke recovered the ball for the Triopia. Seven plays later Burrus hit Crews for

a score. The scoring play covered ten yards. A run failed on the conversion.

Triopia scored late in the third quarter on a one-yard plunge by Crews. Rodney Nobis recovered a fumble which set up the score. Burrus passed to Meier for the extra point.

ISD's score came during the middle of the fourth period. Harry Bloomgren came across tackle for two yards for the score. A pass failed on the extra point try.

Meier, senior halfback for the Triopia, picked up 136 yards on the ground. Jesse Joyner and Bloomgren paced the Tigers' running attack.

Triopia is now 7-0-1 overall and is 5-0 in the PMSC Conference. ISD is 5-3 with a 2-2 conference mark.

Clay Jokes Of Possible Retirement

HOUSTON (AP) — Cassius Clay joked about retirement a day being tired Friday but said he plans to end his Nov. 14 title fight with Cleveland Williams as quickly as possible.

Two hours after arriving to set up his Houston training headquarters, the heavyweight champion laughed and joked through a one-hour news conference but would not predict how long the Williams fight will last.

CASSIUS CLAY

"If I say the first round you might not come," he said. "I plan to get by this fight and win it as early as possible. But this is my fifth fight this year and I'm a little tired. Cleveland hits hard and if he tags me I might have a little trouble. He is catching me when I'm a little tired and have been having a little trouble with my hands and back."

Expresses Confidence

He later minimized the ailments and expressed confidence saying, "I'm not known for hitting too hard—just regularly."

He indicated a strong desire to retire after beating Williams and Ernie Terrell, who is recognized by the World Boxing Association as the heavyweight champion.

"I'm fighting one of my few last fights," he said. "I'm not announcing anything but after Williams and Terrell I would like to retire as the champion with money in the bank."

Will Quitt It Beat? "I'm repeating that I've said before: If I get beat, that's it. I don't have a return match clause. I don't have any tricks or fixes. If someone beats me, I'm out-retired."

The unbeaten champion will resume training at a downtown gym 11 blocks from the hotel. Williams is training at his manager's ranch, 125 miles southwest of here. He arrives Nov. 11.

Clay, 24, whose 26 straight victories include 21 knockouts, will be making his fifth title defense of the year.

Williams, 33, who has recovered from a critical stomach wound he received in an altercation with a highway patrolman two years ago, has won 65 bouts and lost six and has scored 51 knockouts, the highest total of any active heavyweight.
